## Open Letter

To the Editor:

As Chairman of the special advisory commission on education in 1949, I came in close contact with Justice Walter V. Schaefer, then the Governor's First Administrative Assistant. I was greatly impressed with his fairness, his integrity, and his legal ability—to my mind the most important qualities which we should seek in a candidate for Justice of the Illinois Supreme Court.

In addition, I appreciated his thorough understanding of the complicated problems of government in Illinois under our constitution, an understanding which has been greatly enriched by his recent experience as Chairman of the "Little Hoover" Commission. This experience should be invaluable in the consideration of cases in the fields of government and taxation in the Illinois Supreme Court. In many ways these are the most important cases which come before the court; often they affect all of us.

I am a Republican, but it does not seem to me that political considerations are of any importance in determining who shall be the Justices of our Supreme Court.

Harold W. Norman

## Open Letter

To the Editor:

The prevalent mistaken attitude concerns the origin of certain utilitarian articles and accompaniments to the attainment of a more leisurely trend of modern existence. When the invented object proves workable and is hailed as a success, immediate credit for its accomplishment is claimed by Science as a profession.

In the realm of the Fine Arts, when a great creative work is achieved credit is attributed to the Artist who accomplished its expression, but, when one accomplishes the invention of a scientific work, credit is attributed to Science as a profession.

The point I would like to impress is to the effect that— notwithstanding the class to which the creative work belongs, if it is genuine, it is the effect of the inspired thought and effort of a certain individual and not the effect of concerted or professional endeavor.

## Highland Park Council Members Make City Appointments

### Decker Candidate For Circuit Judge; Election, June 4th

Attorney Bernard M. Decker, Waukegan, Republican candidate for Circuit Judge in the June 4 judicial election, is campaigning for a 100 per cent Republican victory.

"This is no time to traffic with Democrats," Decker has asserted, "and every Republican should go to the polls on that day and vote the straight Republican ticket for the four Republican candidates for Circuit Judge and for Judge Julius Miner, of Chicago, our candidate for Supreme Court Justice." "The Republican committeemen of Lake, Boone, McHenry and Winnebago Counties have nominated a candidate from each County and are determined to elect all of them," Decker insists.

The son of the late Probate Judge Martin C. Decker, the Lake County candidate is a life-long resident of the County and has been active in Republican politics for many years.

Decker said he is cooperating fully in supporting the candidacies of Judge William M. Carroll of Woodstock; Judge William R. Dusher, of Rockford, and Albert S. O'Sullivan of Belvidere, and is receiving the same whole-hearted support from them in his campaign.

### Bairstow Summarizes Election Issues

Competition among the judiciary is as important and as valuable as it is in business or industry, Attorney Jack Bairstow, Waukegan, told the Lake County Taxpayers Association at a meeting at the VFW Hall, east of McHenry, Sunday.

"At the risk of sounding like a Republican candidate for office," Bairstow, Democratic candidate for Circuit Judge, said, "I want to point out the value to the litigants, the lawyers, and the taxpayers in having free competition between judges from each political party on the Circuit bench."

"Each of the judges on the bench, knowing that his court work can be compared with a judge from the opposing political party, will give that little extra time, that little extra consideration to each ruling that will pay benefits not only to the lawyers trying the case, but to the litigants as well."

In the June 4 election the Republicans have presented a slate of four candidates, one from each county in the district, while the Democrats have submitted a slate of two candidates.

"Election of a Democratic candidate will result in better service to the people of the district because competition inspires better service and better products," Bairstow, vice-president of the Lake County Bar Association, pointed out.

"The industrial and commercial might of America is a direct result of the free competition between producers and this same competition on the judicial bench will result inevitably in better judicial service to the 17th Judicial District," Bairstow concluded.

### Commencement At Oak Terrace School

The Oak Terrace Orchestra will play the familiar "Pomp and Circumstance" for the processional of the graduates. The program will include music by the class and special numbers by the girls' ensemble. The Welcome will be given by Betty Caldarelli, President of the Class. Robert Long will play a clarinet solo accompanied by Mary Lou Cummings. The Class will be presented by Superintendent Wayne A. Thomas and will be accepted for the Highland Park High School by Miss Dora Bean, a member of the faculty. Donna Valerie Stine of the Senior Class of the High School will welcome the class. Jacob C. Frehner, President of the Board of Education of School District No. 111, will present diplomas to thirty nine graduates.

At the Monday evening meeting of the Highland Park City council the following people were re-appointed to their respective city offices: V. C. Musser, City Clerk; George Prindle and Edward Hart, Water Department; Andrew Beck, Street Department; Philip Cole, Building Department; Edward Patten, City Marshall; Edward Burwell, Member of Plans Committee.

A new appointment of the board of trustees was Dudley Hall, Jr., chairman of the Police Pension Fund, replacing Alfred Bingham.

Two bids were submitted for the construction of a new parking lot at the railroad tracks between Central avenue and Elm pl. The lower bid was presented by Quigley & Snyder Construction Co., the higher by the Meyer Construction Co. The bids were placed on file for consideration.

Representatives of the Northwestern railroad outlined proposals concerning the placing of traffic signals at Roger Williams avenue similar to those at Elm Place crossing. The proposals were referred to the Traffic Commission.

The new plan of a public meeting following the business session of the Council appears to have been favorably received. Council members expressed themselves as hoping that more people will take advantage of this opportunity to present problems of community interest in an orderly and businesslike manner.

## Prompt Action Saves Baby's Life At Highland Park Hospital

The parents of 7-month old Brenda Lynn Cunningham were quite happy to have her back home again in good health after several very critical days when her life held in balance.

When Mr. and Mrs. William Cunningham brought their acutely ill baby to a Highland Park physician on May 12, she had a temperature of 107 degrees and various serious muscular complications. The doctor suspected osteomyelitis and rushed her to the Highland Park Hospital for immediate treatment, as it was uncertain whether she could survive. Although the parents wanted to take her to a charity of one of the Waukegan hospitals, the physician on the case and the Highland Park Hospital authorities decided that she could not be moved. Treatment was continued at the Highland Park Hospital until last week when the baby was discharged as cured. Final diagnosis of the illness proved to be cellulitis of the left leg.

The father of the baby is unable to work because of a serious cardiac ailment, and the mother supports the family by doing housework. The Cunninghams are a colored family living in North Chicago.

## AVC Group Takes Poll Of Voters' Views

A North Shore veteran organization this week began sending out questionnaires for a cross-section sample of voter opinion on vital issues. The survey will cover the 13th Congressional District.

A poll by radio commentator Fulton Lewis, published recently by 13th District Congresswoman Marguerite Stitt Church, was not typical of all voters within the District, officials of the American Veterans Committee charged.

"Our poll is being mailed by reply postcard to an impartial cross section of voters," stated Howard Kraus, Glencoe, chairman of the AVC chapter. "Names being polled are those under letters 'C' and 'H' of the suburban telephone book, taking from each column the first name with a 13th Congressional District address."

The AVC questions will be limited to five of the key issues posed by Lewis, Kraus said, plus a query on General MacArthur's plan for war against China.
