**Summer Reading At City Library**

If you have a yen to travel this summer, children, but don't think you'll get beyond a visit to grandmother's or Aunt Sue's, you need only to be able to read to have a passport to foreign lands and strange places. You can begin your world tour June 11 when the Summer Reading program of the Children's Department of the Highland Park Public library gets under way. This year, as always, the purpose of the summer program is individual reading guidance; but the form of the project, which varies annually, is a passport good for travel in all countries.

Any child who wishes to travel through reading is given a passport which is kept on file at the library. As each book is read and briefly discussed with the librarian, the title, author and country through which the reader has just passed are recorded on the child's passport. As the list grows, the more cosmopolitan becomes the traveler.

For purposes of identification the passports carry the signature, school and grade, and a brief description of each traveler including his height, color of hair, eyes, place of birth, and a small photograph. Passports are valid till the end of summer vacation.

Each child may read as many books as he chooses, but book reports are limited to one a day. Seven books read and discussed will merit a blue star; twelve, a gold star. Awards will be made at the annual graduation exercises in the fall.

Last year over 400 Highland Park children registered for the summer reading program. Eighty-one of these received gold stars and 66 were awarded blue stars.

**ELECTRIC COOKING IS WONDERFUL!**

The good news is spreading all over town! If you haven't heard it, you will ... electric range owners just can't seem to help themselves ... they want everyone to know that electric cooking is everything it's said to be and more!

You'll hear that an electric range won't send extra heat into the kitchen even though you bake six pies on the hottest summer day. They'll tell you about meals that cook in an automatic electric oven ... even while you're away from home. And you'll find out how economical electric cooking is ... less expensive cuts of meat come from the deep-well cooker taste-perfect and tender. What we're trying to say is: just ask your friends who cook electrically ... they'll tell you the good news!

See the newest electric ranges at our nearest store or your dealer's.
