**"TREASURY MEN
IN ACTION"** says—

Bill E.—a vet with a good war record—lives in an eastern city with his wife and two fine youngsters. One of Bill's proudest possessions was a German Luger pistol. He had taken it from a Nazi in combat. For two years the gun lay in a dresser drawer. Then Bill's wife put it in the attic. Another year passed. One day Bill's young son, John, found the gun, took it out to play. An older boy got it away from John. The next night two thugs used the Luger in a robbery and an innocent man was shot and killed.

Bill didn't know ammunition is available for almost any gun made. Another thing he didn't know: Sawed-off saw weapons are used in four of every five crimes involving firearms.

Every year in this country 5,000 persons are killed or injured by war trophies. Play safe! Turn your war weapon over to your local police. Or at least take it to a gunsmith and have it deactivated. Save a life. It may be your own!

The link that had to come

The two main roads to the solution of life's problems, divergent though they may have seemed to be, are the way of Science and the way of Religion.

These two paths converge in Christian Science. Today the rational thinker finds logic, supported by proof, in the religious thinker's deep conviction of a primal cause, or intelligence, called God.

Science and religion can now agree, for through the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, the actual Science of Christianity has been revealed.

This great book shows, through reason and revelation, the solution to problems of health, supply, or of any other kind. It may be read or obtained at all Christian Science Reading Rooms. The coupon is also for your use.

August Inductions

Illinois has been ordered to supply an additional 1,438 men for induction into the armed forces in August, it was announced on July 12, by Colonel Paul G. Armstrong, State Selective Service Director. Added to the original August call for 2,435 men, this makes a total of 3,873 to be inducted, or 11.1 per cent of the total national call of 35,000 for the month.

The increase makes next month's call the largest since last March, when the State was ordered to furnish 4,490 men, Colonel Armstrong said. The August total is nearly two and a half times the current month's figure of 1,561. Asked the reason for stepped-up induction, Colonel Armstrong declared: "The armed services need men to replace soldiers whose enlistments were extended for one year after the outbreak of war in Korea and who now are beginning to be released. Large numbers of reservists, likewise, are becoming eligible for discharge and must be replaced. In addition, the Marine Corps has now called on Selective Service for manpower."

The Pearl and the Price

Most people know the parable of the "pearl of great price," and the man who sold all that he had to buy it (Matt. 13:46).

Have you ever asked yourself what it meant? The "price" is our surrender of the afflictive human thinking causing our troubles. How to give up these human fears, how to grasp and find freedom would indeed be "the pearl."

The way of this liberating understanding is explained fully in the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy. Whoever will put its statements to the test will find this great Science of Christianity to be demonstrable.

Science and Health may be had or obtained at all Christian Science Reading Rooms. The coupon is also for your use.

NORTHMORE'S HOME PRODUCTS

By HANBY FLAME Your Gas Water Heater

When we think about the uses of hot water in the modern home we're reminded of the story about Johnny and his teacher that went something like this:

Teacher: "Johnny, can you tell me one use for cow hide?"
Johnny: "Sure. It holds the cow together."

So it is with hot water. It holds the household together. Imagine cleaning, washing, bathing or any one of the thousand things you do each week, if you had to get along without hot water.

A constant supply of hot water is a pretty important servant to have in the house. An automatic gas water heater is the one sure way to get all the hot water you want—instantly and constantly—economically and automatically. Stop in today. See for yourself how much cheaper it is to have all the hot water you want with an automatic gas water heater.
