Travel Notes To You

En route to Williamsburg, Virginia:-

Time for a short vacation trip . . . and we're headed towards a town loved by many Highland Parkers -Williamsburg, Virginia. . . .

After being outfitted for the trip by Dave Floyd, currently on the staff of the Fell Co., we had our car checked over by those able men at Purnell & Wilson.

(Incidentally, before I forget, public relations experts from Chicago department stores would find it expedient to visit Highland Park stores where customers are given mighty courteous service. A special thanks to the Fell staff . . . and to the Ford men. . . .)

Congratalations

Combining business and pleasure on this trip, we Mrs. Price Patton, Chairman had/to be in the East, unfortunately, on the wedding day of friend Hugh Suttle. So, before making any knew she was the xery person to travel hotes I'd like to pause here and wish Hugh and his pretty bride lots of happiness. . . .

Travel Notes

My capable "co-pilot" on this trip jotted down notes as we drove thru flat Indiana and hilly Ohio, and here are some of those notes, recorded at random. .

Trucks, when traveling, can be a big hindrance; city and suburbs around August but if you cooperate with the drivers, they'll really help you.

"Toot your horn twice. Wait for my signal. Then It will make its final appearance

come ahead. The road is yours."

We saw that written on the back of several trucks.

We followed these rules . . . and we were able to drive almost 500 miles the first day out. . . .

Can't understand why car radio manufacturers don't make their sets capable of pulling in more stations when traveling. Nothing is more restful than good, soft, static-free music when you're clicking ington Avenue, Glencoe, is ex- to aid in the drive to combat off the miles. . .

Wish night drivers would lower their lights fast-

er. . . .

Every town we went through seemed to have one outstanding home in it which set the "pace" for the others....

These small towns certainly get the newest mov-

ies. . . In a few minutes we'll arrive in picturesque Mark ietta, O., a quaint town on the banks of the Ohio River. Here, as a guest at the friendly Hotel Lafayette, we'll stay for the first night . . . then on to The Greenbrier Hotel in White Sulphur Springs . . . then to Lexington, Va., home of famous Washington & Lee University and Virginia Military Institute . . . and then on to nationally famous Williamsburg where this PRESS correspondent and "bride" will relax at the Inn. . And now to dinner . . . more later. . . .
