

Monday Aug. 20th

Finished shingling as much as we could. Rained today. Roof terribly slippery. Bill Bulger fell off so we decided to wait until shingles dried out a little before attempting to stand on them again.

Worked inside. General clean up. Smoothing down openings for windows. Mitch and Joanne went for barnboards to start inside of porch. Removal of all boards in porch but for 1 washroom. Windows started on porch.

Frames built and facia needed. What a day. Everybody beat for some reason. Must have really been a rough weekend for us all.

Tuesday Aug 21st

Nice day - shingles finished on roof. Started putting barn boards on inside of porch.

Frame for one and $\frac{1}{2}$ windows completely finished in porch.

One pane of glass in

Started door frame for porch. Joanne up to Hen rips for tin trim for roof of porch.

Started shingles for porch to roof. - tin trim on one side
