The Globe.

TORONTO, SATURDAY, MARCH 3.

THE SURPLUS AND MUNICIPAL LOAN FUND POLICY.

In a speech occupying two hours and a half in delivery the Attorney-General yesterday unfolded the scheme of the Government for the adjustment of the Municipal Loan Fund Indebtedness, and the compensatory advantages to be offered as an equivalent to the unindebted portions of the country. A full report of the lucid exposition given by Mr. Mowat will be found elsewhere. In the compass of an article we can only propose to give a general outline.

The measure accepts, in the first place, as the basis of municipal indebtedness from defaulting municipalities in which the assessment of five cents in the dollar as fixed by the Act of 1859 has not been sufficient to pay the interest, the reduced amount which on a calculation will be shown to be that on which the five cent assessment would pay interest at five per cent. The following municipalities will benefit by this arrangement to the extent shown:—

	Total Indebtedness, Jan. 1, 1873.	Relief given.	Remaining Indebtedness.
Brantford (town).....	882,549	638,531	194,018
Chatham (town).....	161,436	57,953	103,478
Elizabethtown.....	309,651	210,804	98,847
Goderich.....	155,508	53,635	101,823
Ops.....	165,159	127,943	37,216
Port Hope.....	1,928,662	1,761,702	166,960
Peterboro' town.....	145,167	72,737	72,430
Stratford.....	292,812	125,015	167,797
Lenark and Renfrew ..	1,560,047	1,237,978	322,069

But there are other places for which even this measure of relief would prove insufficient. It is an essential part of the scheme that all future indebtedness
