

says that he left Sudbury on Feb. 2nd, eleven days before the epidemic there was diagnosed as smallpox, and went to Ottawa, thence to Whitney. Three of the tents in the isolation camp near Sudbury are now filled with patients and suspects.

To Help the Settlers.

The Department of Crown Lands is making arrangements to extend the system of guiding its settlers to their destination in the Rainy River District, as well as in the Port Arthur and Temiscamingue regions, where it was introduced last year. This will be under the direction of the Crown Lands agents, and will be a great convenience to the settlers.
