THE EDITOR'S LOGBOOK

The January theme slide show was a great success, with lots of members present and many of them participating in the slide programme. We thank all who participated in this annual event.

This issue of "Scanner" truly is a tribute to the participation of our members. Not only do we have our annual winter lay-up list, the information for which is supplied by members all around the Great Lakes, but we also have a return feature on the passenger steamer OSSIFRAGE, which we began in December and followed up in January. It is because of the hard work of a number of our readers that we have much more information concerning this ship available for publication, as well as some truly remarkable photographs. We thank all who have participated in the preparation of material for this issue.
