

FORT HENRY was upbound below Welland Canal Lock 2 when J. H. Bascom's camera caught her on December 4, 1971.

Many thought FORT HENRY had one of the prettiest of modern sterns. Editor's photo above W.S.C. Lock 8, June 5, 1976.

Another photo by the Editor caught FORT HENRY in the Neebish Rock Cut on August 10, 1973.
