This menu, from the Editor's collection, is undated but probably is from early in the career of C.S.L.'s 1928-built QUEBEC, sistership of TADOUSSAC. Sadly, QUEBEC is best known for the fire that destroyed her at Tadousac on August 14, 1950, with the loss of seven lives.

We wish we could show you the art work on front and back covers of the menu. Spectacular!

Atright is the "Daily Special" insert that came with the menu. Please note carefully the "unusual" notepaper on which the insert was typed by hand.
