

The earliest photo we have of M. SICKEN shows her at the Soo Locks. Unfortunately it is not dated.

Photo courtesy Historical Collections of the Great Lakes shows M. SICKEN unloading sand at Bay City, Michigan, on August 18, 1933.

M. SICKEN is seen at Kingston. Her foremast has been removed but the A-frame not yet moved forward. It probably was the winter of 1933-1934.
