

Transforming Giving. Transforming Care.

We are moved by the many ways our community rallied support for Our Home, Our Hospital, the \$30 Million Campaign to expand Milton District Hospital. You may have named a room or bench, picked up a golf club, ran a 5k, purchased a ticket to our gala or wore your PJ's to the Black & White Party. No matter what you chose to do, you have helped to touch every patient that walks through our doors!

Did you know?

It may surprise you to know that government funding does not support equipment purchases. That means, 100% of equipment required for our hospital is funded through donations from our generous community.

To find out more information, or how you can support MDHF, please contact
