Tips to add value and style to your home

Updating your home can make the space more livable and beautiful. But giving your home a refresh can also boost your property value. Here are some ideas to consider for your next improvement project, big or small.

Customize your window treatments

Made-to-order window coverings are like a well-tailored blazer — they instantly add timeless luxury and professional sophistication. Opt for a classic look with clean lines that's always in style,

like Vignette modern roman shades from Hunter Douglas. Unlike other roman shades, they can open from the top, from the bottom, or somewhere in-between for the perfect balance of privacy and light. Choose from an array of luxurious textures and colours to transform your windows.

Stage like a pro

Even if you're the only one who will be seeing your home this weekend, style the place like a designer would for an open house. Start with your coffee table — combine one large statement piece like a vase or bowl and stack art books or candles for fashionable flair. Other meaningful touches are fresh orchids, plumping the pillows and draping a throw across the couch.

Layer the lighting

The secret to making a room look like it came straight out of a magazine is layered lighting. Set the tone with ambient lighting at every height...Try experimenting with wall-mounted sconces, pendants, chandeliers or foot lamps for a brighter space and increased functionality.

Modernize your kitchen

Few renovation projects offer a better return on your investment than a kitchen upgrade. This key room is the heart of the home and is often the first place guests look. Even small updates can make a big difference. Try swapping out a dated sink or an ancient microwave for a new energy-efficient model, or painting the cabinets and replacing the knobs and handles with a stylish metal like brass. (NC)
