

## Carriage Gate contributes to Santa 5k Toy Drive

Carriage Gate generously donated more than \$1,000 in toys for the Burlington Santa 5k Toy Drive. The Carriage Gate head office and future site of Gallery Condos & Lofts was home to more than 2,000 Santas, volunteers, and supporters during the week leading up to the race.

"We were thrilled that Carriage Gate also contributed over \$1,500 to support this year's race and allowed us to use their head office in preparation of the annual Santa 5km race," says Kelly Arnott, Race Director of VR PRO Inc.

"Giving back to communities in which we build is very important to us and remains one of our core principals," says Nick Carnicelli president of Carriage Gate.

Early in 2019, Carriage Gate will be launching Gallery Condos & Lofts one of Burlington's finest condominium communities bringing modern luxury living to Downtown Burlington.

The art inspired open concept suites range in size from 494 to more than 1,500 square feet with prices starting from the \$400,000s. Features include 9- and 10-foot ceilings, spa inspired master ensembles and kitchen finishes by award winning Tomas Pearce. Gallery Condos & Lofts will put condo owners in the midst of the downtown pulse, where everything from events, to food, drinks, and shops are within walking distance.

Carriage Gate will continue to be an integral part of downtown Burlington's exciting evolution and the company will be involved in the revitalization of Hamilton with Roxborough Park, one of the city's biggest developments.
