Milton MP Lisa Raitt held a town hall meeting at the Milton Chamber of

Commerce on Tuesday (April 30) to talk about "all the things that are happening in Ottawa" and take questions from the audience on national and

local matters.

One of the local issues brought up during the Q&A was the proposed rock quarry site at Twiss Road and Reid Sideroad in Campbellville.

## Better hearing keeps you open to meaningful conversations

Oticon Opn's BrainHearing™ technology makes speech easier to understand and remember, keeping you connected to those you love

The better you hear, the more engaged you are in life – and being socially connected helps keep your mind active and sharp. Research links people with hearing loss with a higher risk of cognitive decline and conditions such as dementia\*. The Oticon Opn™ hearing device can help. It uses BrainHearing technology to reduce your listening effort and make speech easier to understand. With Opn, you can stop worrying about your hearing – and start enjoying the moments that matter.
