Accidents.

Fire-arms are being extensively intrcduced into this country, nearly every ne having a "shooting iron" of some kind but it behaves all to be especially careful in handling them, as many fatal accidents are apt to arise from carelessness in this respect. In proof of this we have heard of three accidents this week, as follows :- A young man named Jackman, living in-Trafalgar, while hunting on Tuesday evening, shattered his hand by the bursting of his gun. Dr. Street of Wilton was called in and amputated the hand. Mr. George Sumner of Oakville, received a wound in the hand while examining his revolver, and lastly, J. W. Simcoe Kerr, Esq., had his hand badly injured by the discharge of his Smith & Wesson Rifle.

Messrs. McDougald and Johnson, taking advantage of the fact, that the CHAMPION from its largely increased circulation in the south of the County, is an excellent medium for the purposes of the business men of Oakville, advertise in this issue, that they have opened out an immense stock of goods, which they are daily disposing of at the lowest remunerative prices. Mr. McDougald is well known as one of the best husiness men of Oakville, and the stock has been bought by him for cash in the Eastern markets. Mr. Johnson is also very favourably known to the people of Oakville and vicinity, and it speaks well for him after a long service as clerk to Mr. McDougald, that he is now taken in as a partner, having the principal active management of the business. The firm starts out on the cash system, feeling confident that a business established on such a principle will strengthen with time. Their motto is "small profits, quick returns, and no pau debte."
