GOOD NEWS FOR HUNGRY CATTLE.—Mr. Franklin, of the firm of Barber Bros. Streetsville, informed us that they had about 250 loads of hay this season.

MR. George A. Stark, Ensign of the Nassagaweya Volunteer Company, obtained a first class certificate at the Military School, at Toronto, last week.

WE regret to learn that a little child of Mr. Goodenow, Georgetown, swallowed a copper that had been given her to play with, and has been quite unwell in consequence.

We have received Wood's *Household Magazine* for August, devoted to Knowledge, Virtue, and Temperance. It is well worth the price, only $1 a year. Published by J. S. Wood, Newburgh, N. Y.

The accommodations of the Commercial Hotel, Milton, have recently been increased by the addition of an extensive driving shed. Mr. Clarkson, the Landlord, will spare no pains to make his guests comfortable.

THE Quarterly Meeting of the Wesleyan Congregation at Milton, will be held on Sunday next, the 8th inst. Services to commence at 10 a. m. On Saturday, at 2 p. m., public service will be held at the church.

THE rules and practice and forms hitherto in use in the Division Courts, have been done away with, and new rules and forms in lieu thereof have been promulgated by the board of County Judges, to take effect from and after the 2nd inst.

MAGISTRATES may not be aware that by the late Law Reform Act, they are required to return quarterly lists of all Convictions to the Clerk of the Peace, on or before the second Tuesdays in the months of March, June, September and December.

SUGARS.—G. Smith is now receiving a choice lot of Sugars, Teas, Tobaccos &c., and is selling them at low prices. 12 lbs Rasins for $1; 20 lbs Currants for $1; tip-top Tea, $1 per lb,; Old Rye and Common Whiskeys for harvest, as usual, the best and cheapest in town.

ON Saturday next there will be an eclipse of the sun, beginning at Toronto at 4:50 p. m., and ending at sunset. A great many scientific men in different parts of the continent intend to observe it, and important accessions to our knowledge of Natural History of the sun and moon are expected.

J. B. Willmott, Druggist, of this Town, has now in stock a complete assortment of Dye Stuffs, of the very best quality, and, as usual, at very low prices. He also is offering a tip-top Machine Oil for reapers and threshing machines, at fifty cents per gallon.

A special meeting of the Town Council was held on Wednesday, the 28th ult., to consider the payment of the costs of arbitrators in the dome matter. A resolution was passed to pay the costs subject to taxation, within thirty days. The arbitrators' bill amounts to sixty dollars.

DURING the heavy storm on Wednesday, 28th ult., the lightning struck the Wesleyan Church, at Lowville, coming down the chimney and going through the floor. No very serious damage was done beyond knocking down the chimney, twisting up the stove pipes, smashing a little of the plastering, and tearing up some of the flooring.

BOOTS AND SHOES.—G. Smith has determined to sell off his present stock of Boots and Shoes at reduced prices. Women's Prunella Boots for $1 per pair. In crockery you will find his prices very low; White Stone Cups and Saucers 80 cts. per doz., usually sold for $1.20; odd Basins, Chambers and Ewers always on hand, Glass-ware and China Tea Setts cheaper than ever.—give him a call.

WILLIAM WARREN, a sweetly perfumed geranium, was on Saturday brought before the Mayor, on the complaint of Chief Constable Frazer, for reconstructing his family, and being on the loose generally. He pleaded in extenuation, that he had been entertaining a select party the night before, to celebrate his birthday (which comes about once a week on an average,) and the champagne (Canadian manufacture) had overtaken him. His Worship delivered an extempore temperance lecture, and informed the culprit that the next time he made his appearance before the court in the same capacity, he would get the benefit of the new Vagrancy Act—six months. Fine in this case, $4, and $2 costs, or 15 days.

WE were shown on Friday last a specimen of the oats grown on Mr. Lawrence's fine farm at Palermo.—They are magnificent, the stalk being five feet three inches in length, and the head thirteen inches long. They are the Maine oats. Several farmers in the Scotch Block have sown the Potato oat, which looks well, being a foot higher than the generality of oats.

We have received a very able treatise on the subject of Banking and Currency, by the Hon. D. L. McPherson, Senator, in the form of a letter to the Minister of Finance, in which he points out the unsuitableness to the requirements of Ontario, of the Government measure of last session, and urges the Government to abandon all intention of re introducing it at the next session of Parliament.

GEORGE RUBY, "a gem of purest ray," was charged by Mr. F. J. Jones, Town Clerk, with endeavoring to evade payment of his statute labor tax. The defendant had been indulging in "camphene straight" in order to console himself for the absence of his *frau*, and presented a rather seedy appearance. He admitted the corn and was fined $5 and costs, or 10 days in jail. He is now under the care of Governor VanAllen.

WE would call the attention of Clerks of Municipalities to Sec. 7 of the Act respecting the election of members of the Legislature, Cap. 21, Statutes of Ontario 1868-9. Lists of voters must be delivered to the Clerk of the Peace on or before the 15th August, under a penalty of $200 in case of neglect.

We would also call the attention of Municipal Councils to Section 25 of the said Act. Municipalities must be divided into polling subdivisions, so that the number of voters in each shall be as nearly equal as may be, and shall not in any one exceed 200.

ON Friday last, the Wesleyan Methodist and Presbyterian Sabbath Schools, of Wellington Square, united in holding a pic-nic on Burlington Beach, about half a mile from the village. A more delightful spot could not be selected for a pic-nic. The children of both schools met at the Temperance Hall, at one o'clock, and were marshalled to the ground, where there were various amusements provided. At four p.m. the tables were spread, and about 200 children sat down to a sumptuous repast, the teachers giving them every attention. The tables were again set, and the parents and teachers partook of the good cheer. The Revs. T. W. Jeffers, and R. N Grant presided.—All enjoyed themselves well, and returned home delighted with their day's entertainment.

WE do not remember seeing so fine a crop of wheat as that now harvesting, for the past twelve years. The Midge-proof has fallen down more than any other kind, but is a good crop. It has proved a boon to this part of the country, but now, as we trust the midge is about gone, it will not be much sown, as it is so easily broken down, and rather easily winter killed. The Treadwell stands much better, yields more, and brings a better price; though not so early nor so midge-proof as the former, it will be more sown. The Diehl is a new variety, introduced by Mr. Wm. Elliott, Meadowvale, and grows in favor. It resembles the Soule's, standing the winters well, is not so liable to be broken down, yields largely, and brings the highest price. As high as forty bushels per acre, were raised by some last year. The head is rather short, but it is all wheat. It makes as nice flour as the Soule's, but the bread made from it does not retain its moisture so well.—Those who have the Soule's this year, will have fine crops. We think the wheat crop will average 30 bush. per acre.—COM.

A valuable communication from Mr. W. G. Stewart is unavoidably left out this week.

The celebrated photographic artist, Mr. Burrows, has returned to Milton, and will carry on his business at the old gallery. The present reduced prices will be raised after the 1st Sept.

LAST evening, we had the pleasure of listening to an instructive and entertaining lecture delivered by the Rev. D. Stewart, in the Temperance Hall, on the subject of "Mary, Queen of Scots." The Rev. Mr. Kay was called to the chair. Owing to unpleasant rainy weather, there was not as large an audience as the subject deserved, but those who were present seemed highly pleased with the lecture. A unanimous vote of thanks was presented the lecturer, and after singing the National Anthem the audience dispersed.

CHIEF among the manufactures of this Town is the foundry of Messrs. Brothers and Hatton, which notwithstanding the "oft told tale" of the dullness of business in Milton, is now doing a brisk trade. During this season they have turned out 13 threshing machines, with the "Milton Improved Separator" and Pitt's improved Horse Power," averaging $325 each, and 51 of their combined Reapers and Mowers, worth, on an average, about $120.—Besides, they have manufactured an innumerable quantity of ploughs, straw cutters, cultivators, &c. They usually give employment to about 20 hands, but, so great has been the pressure of business this season, that they have been under the necessity of refusing a number of orders for their excellent manufactures. The general adoption of labor saving machines by the farming community is one of the most pleasing evidences of progress

His bail will now be estreated and his luckless securities relieved of their superabundant small change. It seems, however, that the bailers were worthless. Likely enough.
