MILTON, SEPTEMBER 9, 1869.

THE GOVERNMENT OF THE NORTH WEST

The proposed formation of the Counduties as Governor of the North West, is exciting throughout Ontario comments by no means favorable to the Dominion Government. The proposal is to select two of the Councillors from Ontario, two from Quebec, one from each of the Maritime Provinces and two from the North West Territory. Such is the journals. Six of the eight advisers none at all-Ottawa alone should have would merely remark that it was their will go to their seat of government in built the Parliament House-Toronto, duty to examine into the state of the Osgoode Hall and its University. Why Gaol and report it to the Court. almost total ignorance of the country, or of the peculiar wants of the people over whom they are to have such an im pay for these if they are not in Halton? their room, portant influence. Granting that it is expedient to have a number of Canadian politicians in the first Council, which we are not disposed to deny—the pense of the whole Province, so our dict for the Plff. for \$278 05 proportion of those who have for some time been residents in the country—who they run, but at the expense of the public for the benefit of the inhabitants best means of developing its latent capa bilities, should have been greater than the faction, graciously conceded in the present arrangement .-The Red River country has suffered so long from neglect and misrule that a James Forneri, LL. D., late Professor wery few years more would have forced of Mo.ern Languages in University the United States. They have shown, under circumstances which would have and devoted feelings of patriotism, seems to visit them with. Perhaps by in a popular Emeute of the undergradthis time they have learned to take a to bis trial, and ultimate escape from an The philosophical view of their affairs, and Italian dungeon. Then came the bill on the charge of bigamy against Alare content to accept small favours with French invasion of Italy; the return of thankfulness: if not, they will have the proscribed exiles, and with them good cause to complain that the affairs young Forneri, who completed his edof their country are to be governed, and Soon after this the French conscription was a case of assessment.
