Facing Death in the Clouds:

THE BURSTING OF THE BALLOON HYPERION AT THE ALTITUDE OF A MILE-THE MOST RE-MARKABLE OF VOTAGES IN THE AIR.

Prof. S. A. King. the æronaut, advertised that he would make an ascension from Atlanta on the 1st of January, Eight thousand persons assembled to witness it, but a sleet storm was coming up, and Prof. King would not risk an ascent. He offered to re-

shebang, I'll take her up, storm or no You may if you want' to.' You had better take some more ballast," said King, as Hape stepped into the basket. Instead of taking more ballast the Doctor threw out two more ballast the Doctor threw out two more ballast the Doctor threw out two bags of sand already in it, and cut the bags of sand already in it, and cut the ropes. He made the first mile upward in two minutes and a half. The design of them as Ministerialists, and by Treadwell..... Round trip of two miles, three minutes and a half. Here is the doctor's

own account of the journey: The small quantity of ballast carried to reach the altitude of one mile. The cept the spiteful driving sound of the winter rain. I was well aware of the majority claimed for the Government, Eggs... great rapidity with which I was travelling but as the neck of the balloon he had not the confidence of the ling, but as the neck of the balloon was twenty-five inches in diameter, people. The majority of the Province and entirely open, no danger was ap-prehended. The sides gave no evidence of being tense, and the possibility of an explosion was not thought liser.

most emphatically.—London Adver-Grey and Improvement tiser.

A heavy sleet and snow commenced falling, and it was so intensely cold that I was anxious to get through the clouds and get into the bright sunshine beyond. Already imagination pictured the little craft as sailing smoothly Berlin Correspondence of the London Times. above the bad weather, and my heart swelled with enthusiasm as a fancy painted the beauties of a winter sundecided to remain up all night and prolong the voyage as far as possible. Charles and Louise, with the children a sharp explosion. The balloon had burst near the point of its greatest dies were escorted by all the Generals diameter, and had collapsed. It began to descend with great rapidity. Its in Berlin. When the cheers of the peculiar shape gave it a rotary motion Marshal Wrangel advanced to the railrealized the danger of my situation.

Death was inevitable, unless I could succeed in forming the wreck into a parachute, and to do this required much physical strength and perfect much physical strength and perfect the monument of Frederick the Great the Monument of Frederick the Monu

the ropes," and determined to pull It was necessary that the rotten cloth should be not only retained in the netting, but kept in such a left from Mont Valerien came slowly lnmin the netting, but kept in such a bering down Linden. Repeated shouts position as to offer the greatest possible welcomed its approach. It was covcraft proved to be unruly. It soon plunged violently, with the peculiarity horses. There was a rush to behold of a kite that has lost its ballast. each lunge it swung through the air attained a terrible velocity, being frequently thrown higher than any the back of the guard house, beside

pected something to turn up "-in fact Berlin, and as their bells are none of there was great danger of the basket of the most supercus the effect was "turning up" on the top of the canvas, which would result in instant "By a strict attention to business" these mad lunges were modified, and the velocity was more uniform though still very rapid.

I now decided to throw out a por tion; or all, of the ballast, and lifted a bag to the edge of the basket for that purpose, then the thought occurred that it would be less dangerous to keep it in the basket. I threw out a letter, and by watching it as it fluttered in the air, was enabled to tell Berlin has ever seen turned night into with considerable accuracy where the with considerable accuracy where the wreck would strike. To throw out ballast at this time would prolong the voyage to the woods beyond even if voyage to the woods beyond, even if not be behindhand on this rare occait did not cause the basket and contents to be thrown on top of the wreck. Taking this view, it was decided to

that I possibly could. When within three hundred feet of the anchor rope, and watching the lines and li " rise and descent," managed to throw "rise and descent," managed to throw at the proper moment. It struck in time to lessen the force with which I lights were flaming all night, which the lights were flaming all night, which lights were flaming all nights were flaming all nights. would have otherwise struck the
