MILTON, APRIL 11, 1872.

To-day the last Session of the first Parliament of the Dominion will commence, and by the speech of the Governor-General, which has probably by this time been delivered, we will be able to predict, to some extent, the course which the Government intend to pursue in dealing with the important questions which will come up for discussion. To those who have watched with any attention the utterences of the Ministers and their organs, it abundantly evident that a serious, if hoped that he would not be appointnot fatal, attack on the present Government is anticipated. The overthrow of the Patent Combination has not only been a great moral blow to the Ottawa Government, but by strengthening the hands of the Reformers, has proportionately weakened and disorganized the ranks of the Ministerialists.
