To the Farming Public: I would warn the farmers not to be mis

him in the past, the subscriber invites he public to call and examine his goods and parties, intended benefit them.

In order to give an opportunity of judging as to the capability of my Combined Mower Drapes I will make the following proparties, intended more to injure me than to prices before purchasing elsewhere, as he is fully posted up in the wants of the country, and no effort will be wanting on his part to give satisfaction. position: I will allow any respectable farmer who wishes to purchase a Mower and Reaper, and is in doubt as to which make of machine 39-ly would best suit him, to test one of mine in the field during the having and harvest, with a "Kirby;" the farmer them to purchase the I consider this is a fairer and more satis-

factory test than any field trial, as each individual can suit himself, and I have no doubt as to the verdict. Ten years ago the "Kirby" machine was manufactured in the Milton Foundry, but they gave such poor satisfaction in comparison with almost any make, that they were all sice abandoned and the farmers who owned them have all since purchased my make of machines. In corroboration of this statement I would refer to such well known farmers as f James Sherwood, John C. Robinson, John McDougall and Edward Armstrong, of Trafalgar; A. Stark, of Esquesing; A. & J. Henderson, Thomas Turnbull and H. McMaster. of Nelson; and scores of others. Those men are all thoroughly posted in both the one and two wheeled machines, from practical knowledge, and all gave the preference to my Mower and Reaper.

The excellence of my machines is amply testified by the great demand which exists for them. Although I have doubled the number manufactured every year since I commenced business, still the demand continues greater than the supply, and all the efforts made against me by unscrupious agents of other
