and, as I have said, rattling the seed pods chaplain of the forces. in my hand from time to time.

rnd looking down, found that I was walking through quite a cluster of the same plants. I picked a handful, thinking they Neither is there any remedy known to Of all flavors for ices and jellies var. would amuse my host's children, and soon mortals that can excel Dr. Fowler's illa is perhaps the most popular. But it after turned to saunter homeward. I had Extract of Wild Strawberry as a cure for appears that there is a kind of yanilla taken only a step or two when again I Cholera Morbus, Cholera Infantum and which is deadly poison. A great number heard the same sound, and instinctively all Bowel Complaints. looking down, was just in time to see the last few inches of a dark-colored snake slipping under a tuft of sage-brush. I turned back the tuft with my alpenstock, and as I did so the ominous rattle of the dangerous reptile sounded its warning.

and there, curled up at the root of the bush. was the first rattlesnake I had ever seen. that all that rattles is not seed pods.

How immeasurably the terrors of the korait would be lessened if it only gave warning of its presence! In the case of the rattlesnake there must be stupidity or deafness as a factor in every accident, for it is hardly possible to dis under the auspices of the Anti-Beer Adult regard so distinct a sound. While on the eration Association. Mr. H. Stanham, one subject of snakes, it is worth saying, per- of the leading agriculturists of the district, haps, that one of the most universally presided. Major Le May, the hon. secreaccepted superstitions in the world is that tary, quoted figures to prove that last year of the jumping snake. Wherever you go the brewers of England used substitutes you are assured, even by so-called eye | equal to no less than 245,000 cwts. of hops, witnesses, that snakes can leave the ground and therefore much of the liquor sold as and leap up at the victim's face. In America | beer was not actually beer, and must be I believe the error to be very wide-spread, disposed of under other names. He befor wherever conversation has turned upon lieved that if the matter were laid before

the subject, and the company begins ex- the working classes they would vigorously changing snake stories the snake that take it up, and he suggested that every can-"sprang from the ground" is sure to come didate for Parliamentary honors should be to the front. Now, as a matter of fact, no called upon to pledge himself to support the snake can leave the ground to strike; in objects of this association. Mr. Anguetre, deed, it can only raise one third of its total a foreign hop importer, contended that the length off the ground at a time. A six-foot root of the evil lay in the system of "tied" snake, therefore, has a striking radius of houses, which were compelled to sell what only two feet. At any point within that ever stuff the brewer sent, whether it was circle is probable death, but one inch beer or only a poisonous compound. beyond that circle is complete security. A six foot snake of any venomous species is, however, a rarity, and though I had been Mr. W. J. Guppv, of Newbury, informs often assured by those who thought they us that he has used Burdock Blood Bit. had seen them that six-foot cobras and ten- ters in his family with good effect, and foot rattlesnakes exist, I believe in them no more than I do in that other persistent fiction, the ten-foot tiger. The largest rattlesnake I killed myself—and its rattles proved it to be an old one—was barely three feet in length. The largest cobra (and I have killed a considerable number) was four and a half, and none of my venom
