those willing and able to work, but who get into despair by being unable to procure it I am convinced there is no more truly charitable or permanent way of doing good to the poor than by assisting suitable persons to the colonies. I think, sir, by your The Registrar-General has issued his an- | so kindly allowing this great imperial and

BEING LAUGHED AT.

There is a very likely no conservatism Select whichever one of the lighter meals talk better, they dress better, and they flirt acres; in 1883 the amount returned is 10,- displayed by the young boy in regard to women. They are better instructed, they extent returned under grass was 10.109,625 more difficult to deal with than that at you, that sickness was something of you please—breakfast, luncheon or tea—better. They are neither dolts, nor tomboys 191,118 acres, being an increase of 81.493 any change in his appared. "If I must and make the experiment for one month of dressed in petticoats, nor bread-and-butter acres; the extent returned as fallow in 1882 wear these cuffs," said am 8 year old boy, 'And so it was until last winter. I went having that meal very simple and uniform. misses There is, indeed, nothing either was 21,265 acres, and in 1883, 24,698 acres; on Sunday morning. "I am not going to down into Flordia in the fall to see what You will find it more satisfactory in the mest of the only the extent under woods and plantations in church." The cuffs in question were down into Flordia in the fall to see what kind of fish they had in that state and to study their habits, and was attacked with marlaria in its severest form, and when I came home I realized for the first time in my life, that I was sick. My symptoms were terrible. I had dull, aching pains in my head, limbs and around my bacs. My appetite was wholly gone, and I felt a lack of energy such as I had often heard decomposition. If they do not appreciate in the minerity is the centile about them. The only so the masculine about them. The only state in this letter with which I agree is the centile with which I agree is the extent returned and the extent returned this But these grovellers are in the minerity. They are 'denoralized and deteriorated,' and dull, aching pains in my head, limbs and around my bacs. My appetite was wholly gone, and I felt a lack of energy such as I had often heard decomposition. If they do not appreciate in the minerity is the extent under woods and plantations in Europe and the extent returned the extent returned and the extent returned and the extent returned the lasts; and deteriorated,' and deteriorated,' and deteriorated,' and deteriorated,' and deteriorated,' and dull, aching pains in my head, limbs and around my bacs. My appetite was wholly gone, and I felt a lack into your family are oatmeal eaters, let your table show only porridge, bread and butter, of energy such as I had often heard decomposition of the interior my the extent under woods and plantations in Europe and the extent returned and the extent under woods and plantations in Europe acres, against 331,305 and the extent under woods and plantations in Europe and the extent under woods and plantations in the my against 328,999 acres, against 321,305 and the extent returned and the extent under woods and plantations f energy such as I had often heard de- coffee and milk, If they do not appreciate Americans, and, far from thinking that their 2,184,021 acres as barren mountain land, he dreaded the remarks his Sunday scribed but had never experienced Any "The halesome parritch, chief o' Scotia's food," influence is 'injurious to good taste, good feel- The following figures give the total extent school class would make upon them. under tillage :- In 1882, 3,119,184 acres : How little consideration is shown for the in 1883, 3,004,313 acres, being a decrease feelingof children. How few parents realof 114,871 acres. In Leinster the decrease | ize that the child's world, only, as John amounted to 28,972 acres; in Munster, to Brown, of Edinburgh, said, "about three nice butter; and although it may seem at British Journals and Canadian Inde- 29,264 acres; in Ulster, to 46,136 acres; feet high," has its tragedies and comedies, and Connaught, to 10,499 acres. Compared its fear of blighting, adverse critism. So 'My brother who had been afflicted by a severe kidney trouble and threatened with Bright's disease was completely cured by a remedy in which I had great confidence. I therefore tried the same remedy for my malaria and am harmy to a severe kidney trouble and threatened with bread and butter will be found more continuous.

Soon become accustomed to it, and will be all the better in health for living more simply. Some families will prefer to take their plain fare at night. A cup of nice tried the same remedy for my bread and butter will be found more continuous.

Soon become accustomed to it, and will be all the better in health for living more simply. From the Standard Advertiser.

A correspondent expresses himself surther their plain fare at night. A cup of nice the extent under green crops. In flax there but of taste, the children themselves might be allowed to choose within certain bread and butter will be found more continuous. I therefore tried the same remedy for my malaria and am happy to say I am a well bread and butter will be found more conjournals have spoken in favor of Canadian and clover a decrease of 31,051 acres is relimits, what they will have. Who has RIGS. I therefore tried the same remedy for my malaria and am happy to say I am a well ducive to quiet rest and peaceful dreams independence. We have to reply that most corded, The most striking diminution is not seen this sight: when all the happy independence. We have to reply that most shown in respect of wheat—from 152.824 boys in the neighborhood are wearing of Warner's Safe Cure, which I believe to than the mixture of hot biscuits, cold meat, of the leading journals of Great Britan shown in respect of wheat—from 152,824 boys in the neignborhood are wearing shown in 1882 to 94 802 in 1883 a decrease knee-pants, one small and weary sould Indeed, I see it is endorsed by the United States medical college of New York, and that Dr. Gunn, the dean of that institution, has written a long article concerning its value.'

And are you now as well as formerly?'

Apparently so, I keep the remedy on hand all the while though, and do not hesitate to recommend it to others.'

Depend upon it, a plain breakfast or tea served in this way, will prove more acceptable than a carelessly cooked variety set forth in ordinary dishes on a snotted table-cloth. Of course this One question more. How many ponds of fish have you here, and how are they divided?'

One question more. How many ponds will appear at first like a great innovation. The American breakfast is dear to the heart dians are retainers who will never give nor distinct the first like a great innovation.
