By Walter Besant, author of "For Faith and Free

Common Lodging-House in Sweet Lilac Walk, Spitalfields, has changed hands more than once since the year 1868. Had one nothing better to do, it would thought is doubtless a consoling boon ed for the space of a minute and a half. be interesting to follow the fortunes of the successive chiefs of this institution, be graven on the pewter pots. These higher. The children shivered as well as the fate of those who have people were certainly very low down; kicked, clung closer to each other, enjoyed its luxuries. This research, their histories, had they been investi- awoke with a start, and then, with one however, must be abandoned for other gated, would have been those of the consent, sat up, rubbing their eyes, and hands, younger and stronger. As re. stonebroke sporting man, the clerk looking about them, conscious that gards the appearance of the House in with a lost character, the workman another day had begun. And they that year, it was very much the same out of work, the penniless thief, the wondered, being quite experienced as it is now. For public opinion in such matters is conservative; paint costs Magdalene, the bankrupt shopkeeper, the day would produce in the way of money: mere ornaments useless ostentation: even if you were to gild a lodging-house you could do no more than fill it: window cleaning, floor scrubbing, door-step whitening, furniture dusting, and the sweeping of stairs twenty years ago; the goodly company breakfast, lunch, dinner, tea, or supand passages all require the personal effort of somebody—who must be paid : and why perform a task which is neither voars? Besides, their successors we the shop window!—is a banquet when needed nor appreciated? Would our gallant tars continue to holystone the decks if their officers ceased to require of them that duty? Certainly not. Then why blame the master, warden, principal, or dean of the Common Lodging-House in Sweet Lilac Walk because he neglects what he is not called upon or expected to perform? The least desirable, and the cheapest, part of the establishment twenty years ago-perhaps it is so still-was a cer-

The immediately, for within a few weeks mountains southwest of town are known construction work will begin on a large to contain numerous large leads bearoatmeal mill right here in Bozeman, ing gold and silver, and it is probable and the Montana people will in future that important developments will take place there this year.

The coal mining industry is carried on with a large force of men at Timberline and other points from ten to fifteen miles east of Bozeman, and the demand R. R. Co. will soon begin work on ex- for the superior coal of the Bozeman considerable amount of capital is being attracted for the further development of these mines. Until recently the location of the best coals for smelting and other industrial enterprises was a matter of conjecture, but it is now a well established fact that the only considerable bodies of such coals yet opened lie in the south half of Monin the state is carried on between Bozeman and Livingston, and on the Upper

The coals of Northern Montana were widely advertised as combining all desirable qualities, but proved by working tests in the smelters and elsewhere to contain too much ash and sulphur for practical use. Then a narrow-guage railroad was built from Great Falls to Lethbridge to transport the Canadian coal, which had been for some years persistently advertised through Montana as a first-class bituminous coal. It is now on the market here and in other Montana cities and proves to be an ordinary lignite, clean and good enough for household use in summer, but comparatively useless for industrial purposes. It would have to duct to find a profitable market here mand for most products of the soil import duty of 75 cents per ton. As it At present there is aggressive com. must always exceed the supply. The is really very much inferior to the cumulated wisdom and treasures of sagacity. On examination, however, feels the curse of labor more keenly the new state of West and towns of farmers here enjoy a protection in. Montana coal, it is not likely to find we find that their experiences have than his richer brothers; for choice the new state of Montana for the state dependent of all legislation, in the much sale in this state south of Great all gone for nothing. Their minds are they wait on the great god Luck, the
