## THE MANITOBA?

A REVOLUTION IN HOTEL LIFE IN CANADA.

On December 31st the Northern Pacific Railroad will open at Winnipeg their new hotel, The Manitoba. This struc- to Society, Unfit for Study, Excessive ture, which is unique in design and complete in all the arrangements that go to make a first-class hotel for travelers, is located in the centre of the business portion of the city, at the corner of Main and Water Streets, and is by far the finest hotel and railway station in Canada. The Manitoba will be conducted on the American plan. The fact that it has been placed under the management of F. W. Sprado, of Winnipeg, gives assurance that the table and services will be perfect in every respect. The building contains in the basement and on the first floor all the necessary adjuncts of a first-class hotel, such as

the rotunda, reception room, barber shop, laundry, toilet rooms, Turkish baths, bar, billiard room, &c. On the second floor are beautiful parlors and dining-rooms, all finished in California red wood. The main dining-room which extends through two floors is magnificent in size, and decorations. Private dining rooms adjoin which are un. surpassed in their furnishings. The private parlors and bed-rooms are 205 in number, many of them with bath-rooms in addition. The furniture throughout is in keeping with the fine general appearance of the building. The sanitary arrangements are perfect. A

complete steam heating and electric plant, situated in a separate building, will supply the house with warmth and light. In the first floor of this hotel are ticket offices, waiting rooms, etc., of the Northern Pacific Railroad, affording easy JONES: facilities for travelers taking this line south, east or west. Trains make their arrival and departure from a large iron shed which is adjacent to an extension of the hotel containing baggage rooms and express offices.
