on a voyage to Bombay, recently,

The Late Hon. C. F. Fraser,

That persons in society who wishes to be popular will—unless her own remark is wonderfully good, her own story wonderfully good, her own song supernaturally sweet—allow another to make the remark, to tell the story, or to sing the song. Always assuming the song and growing feeling among the story of the Medical Brief, says: "I wish to say a few words the more respectable and intellegent that the time has come when an end shout heart failure. We almost daily the time has come when an end shout heart failure. We almost daily the time has come when an end shout heart failure. We almost daily that the time has come when an end shout heart failure. Now, what I wish to sak is it that the heart failure. Now, what I wish to sak is it that the heart failure to the doctor's amail gray assuming the song of all creeds and parties, has been formed to crush out all societies proton the song of the song of the song of the story of the song of the song of the story of the song of the song of the song of the story of the song of the song of the story of the song of the song of the story of the song of the song of the story of the story of the song of the story of the story of the song of the story of the story of the story of the song of the story of the story of the story of the song of the story of the story of the story of the song of the story of the sto to sing the song. Always assuming Fraser. Mr. Fraser's career was one most perfect organ in the animal scribing any man's religion, that it is popularity she looks for, then the report of her sweetness, her interest, her amiability, will stand her in far more stead than any report of her brilliancy, her wit, her repartee.

The woman who has all her resources at command, a story appropos for every.

The womand, a story appropos for every. at command, a story apropos for every. his country for many a long year with thing, a cutting sarcasm, a stinging iest, a smiling retort, can pass away unquestioned and unconstituted by the country for many a long year with pulsation for 100 years or more.
