## THE CHAMPION

MILTON, AUG. 6, 1896.

THE Toronto World says that when Parliament opens a Quebec supporter of Sir Charles Tupper will move that the salary of the Governor-General be reduced from \$50,000 to \$25,000 a year. Con. Tupper evidently seeks to punish Lord Aberdeen for refusing to assent to the appointments made by the Tupper

Government after the 28rd of June. In 1868 a bill reducing the Governor. General's salary from £10,000 to £6,500 was passed in the Commons, approved by the Senate and referred by the Governor-General of that time to the Imperial Government, who refused to assent to it.

WHEN the time for entering protests against the return of members of the House of Commons expired at noon last Monday eleven petitions had been filed against Conservative members in Ontario and not one against a Liberal. A man came wandering up King St. the other day evidently looking for somebody or something or some place or another, you couldn't tefl which or what by his gaze. Pretty soon his eye caught sight of our store and he looked astonished. Then he looked up and caught sight of our sign and then he looked relieved. He started towards the entrance with his eyes still on the sign and remarked to one of the clerks that he thought "he'd just drop in," and so he did, for that was as far as he got in his speech when he dropped into the sellar through the coal hole. It's a good thing to drop into some of our sellers. Our 50 cent Summer Coats, for instance, and our \$1.50 Tweed Pants—they're great sellers—look like \$2.50 quality and wear accordingly. Then there's those Men's and Boys Flannelette Shirts at 15c each, all sizes, collars attached, and Boys' dark colored Tweed Sailor Suits reduced from \$1.00 to 50 cents. They were poor sellers but they'll go now at 50 cents. Men's All-wool Serge Suits at \$5.00 that did not sell fast enough at \$7.50 are now going like fans at a circus.
