A Business Business.

Smith's Clothing Manufactory is noted throughout the country as a store that does a business without any frills—a business without any money tricks—a business done on business principles. We do business alike with all men. No man can buy goods off us cheaper than his neighbor can. When a man tells you he trades with us he does it out of friendship for you, not for us. He knows that your money will go further in men's wear at our store than at any other store of the kind in Hamilton. Our earnest endeavor this fall will be to do better than ever before for our customers. We mention below our lines of clothing that we would like you to see.
