> The first pens were made of bronze, stell and iron, sharp pointed like a bod. articles of American manufactur kin. These were used in producing retaliation for the Dingley Act. hieroglyphics on stone in Assyria and other eastern countries. Then came the camel's hair pencil for painting on the skins of animals, and next the stylus of bone, iyory or metal. But parchment and papyrns became known and the reed pen was invented. Time rolled on, and it was discovered that
