spelling, which seems to have been "Gla stane," or "Gledstane," was probably the name of some border lairdship or farm, s called from the rock or cairn used by the "gled"-which is lowland Scotch for kite or hawk—as a favorite perch. Its exact equivalent is to be found in the Germa "Falkenstein," which is both used as a place name and patronymic—the former of course, being of prior usage. This the pure Germanized form of the Scottis "Gledstane" or "Gladstone." tional analogues in personal names are very interesting.—London Chronicle.

Gladstone Turned the Laugh. "We are very proud of our trees," said Mr. Gladstone once to a party of excursionists from Lancashire, "and are therefore getting anxious, as the beech has a ready shown symptoms of decay. We set great store by our trees." "Why, then," roared a Lancashire lad "do you cut 'em down as you do?"

"We cut down that we may impro
