Clock of Bread. Milan has a curiosity which is made entirely of bread. The maker is a native of India and devoted three years of his life to the construction of this curiosity. The clock is of a good size and goes well

Granite is the lowest rock in the earth's crust. It is the bedrock of the world and shows no evidence of animal or vegetable life. It is the parent rock from which all the rocks have been either directly or indirectly de-

Bombast. Bombast once signified the cutton that was employed to stuff garments particularly the enormous trank have worn in the fourteeth and nite and centuries. A Natural Icehouse.

There is a point near the funding Stony cave, in the Catskill mountains. where ice may be found on any dry in the year. This locality is locally hown as the Notch and is walled sides by steep mountains some of which are more than 3,000. Butterfly Day.

The ancient custom of "hatrenty day" is annually celebrated at Thanted, England. This strange festive derives its title from the fact that the habitants of the place annual on that day don new clothing and the with each other as to the gaudiness of their garments. Eating, speechmaking and so on enter largely into the proceed-

Do you know that flour should be kept in a cool, dry place? If possible, there should be some kind of a const receptacle for it, and too large a spacetity sometimes spoils by being kept too long. It should also be remembered that mites which often get into flour are more destructive than 1. A Famous Jockey's Grave.

Flour Should Be Kept Dry.

It is not generally known that the body of Fred Archer, the famous Eng lish jockey, is buried within 2000 yands of the winning post for the Cambridgeshire. The Flower Impatience. "Impatience" is the nickname of a

certain dear little flower which should

be in every collection. It is nicknamed

because of its impatience to bloom. It

is good for either potting or garden culture and will blossom steadily for months at a time. Guatemala Indians. In Guatemala the Indian population tries to double its chances for the efficacy of prayer by worshiping at a

Christian altar with images of its heathen deities hidden behind it. Anthracite Coal. It is estimated that, allowing a year ly output of 60,000,000 tons, the stock

of anthracite in Pennsylvania will list

eighty years. French Mustard. Slice an onion thinly, cover it with vinegar and set to soak for twenty four hours. Strain off the vinegar and add to it a tablespoonful of salt, the same quantity of brown sugar, a tea spoonful of white pepper and suit cient mustard flour to thicken. Stir all together while it comes to the beil and bottle for use.

A Russian Law. No Russian is allowed to return to his native country if he has washe away changed his religion.

Fish Sauce. A delicious fish sauce to serve with meat or fish is made by putting six spoonfuls of water to four of vinegar set on the fire; thicken with yolks of two eggs; make hot, not boiling, and squeeze the juice of half a lemon before serving.

Stored Honey. Honey properly stored win improve with age, and the older it is the better it will be. But kept in a damp place it soon becomes thin and watery.

Big Wooden Chimney. A wooden chimney stack 160 feet high is in operation at Mapimi, in the province of Durango, Mexico. The interior is lined with corrigated from, and there are platforms at intervals to throw water on the wood if it catches fire.

Lemon Sherbe For a lemon sherbet take a pint of lemon juice, a quart of water, a pound of sugar, whites of six eggs. Stir i latter after other ingrellents have been partly frozen.

Hadn't Heard "Money talks," asseverated Gilder-"I am not so sure of that," retorted Throckmorton. "It is not on speaking terms with me."

Liked the Old Way Best. "Bridget," asked Mrs. De Leon, "can you cook on scientific principles?" "Sure, ma'am, what's the matter with cookin' on a range?" asked sensible Bridget.

"Soy, Chimmie, wor'd de boss call y' up fer?" "T' call me down."
