Two Pavilions have had to be Closed Owing to Lack of Funds, and the Number of Patients Beduced from 75 to 50.

Wanted this Year to Carry on this Great Work. leg, he drove the animal home-strange \$25,000 ily along in front of him and giving With a view of helping to bring to the attention of the public the needs of the Muskoka Free Hospital for Consumptives, we have pleasure in publishing the following letter, in which an appeal is made for funds.

Dear Friend,-

It again becomes necessary to make an urgent appeal for funds for the Free Hospital for Consumptives.

A very heavy debt is pressing upon the trustees. In addition to this, funds must be provided for the maintenance of patients. Last month there was a deficiency of nearly \$1,500 over and above receipts from all sources.

The Free Hospital for Consumptives was opened eighteen months ago. 225 patients have been admitted. No patient has ever been refused admission because of his or her

1,000 patients have been cared for in the two Muskoka Hospitals, the Sanatorium and the Free Hospital for Consumptives.

The majority of these have either been cured, or so helped that they have been enabled to again become bread-winners for the family. The public are beginning to find evidence of our work. Already there has been a decrease of nearly 25 per cent. in the death-

rate from consumption in the Province of Ontario. The last report of the Secretary of the Provincial Board of Health shows that in the last three years the deaths from consumption in Ontario have decreased from 3,484 to 2,694, a decrease of 790, or nearly 25 per cent.

This is the more gratifying when we remember that for a number of years previously the same report showed a steadily increasing death rate prior to 1899.

Who will doubt that the work of our two Hospitals in Muskoka, and the persistent educational campaign carried on, has not helped to escure this surprising result? In what better way can your gifts bring so good a return?

We have no endowment, excepting the provision recently made by Canada Life, Confederation Life, and North American Life Insurance Companies for maintenance of 2 beds each for a year. We can only rely on the philanthropy of our people and a knowledge

of our needs. Last year we asked \$20,000 to reduce the debt and to pay for care of patients. We had a generous response, receiving \$10,000, gifts coming from Halifax on the east and Yukon on the west. This year our needs are

greater than ever. We will require \$25,000. The Bishop of Selkirk, Caribou Crossing, Yukon, sending \$10.00, writes: "The trifling remittance I send is intended to express our sympathy for the sufferers in other parts, rather than to imply a special need for your institution here."

We are grateful for the large gift. We are grateful for the small gift; all gifts are helpful.

On account of our pressing needs, will you not make this your special charity? During the year, for lack of funds, we had to close several pavilions,

reducing the number of patients from 75 to 50. The sorrowful part of our work is that nearly all of those in the Free Hospital are young men or women who were striving to make a place for themselves in the world. Many of them have wife, or child or husband anxiously watching the struggle for life.

Your gift will help to bring gladness to so many. Will you have the joy of giving?

Very truly yours,

Sir Wm. R. Meredith, Kt., or Mr. W. J. Gage, Toronto, will receive and

acknowledge any contributions made.
