Important Notice to the General Public. and the Farmers in Particular.

Our competitors in Hamilton and surrounding country say that we sell goods too cheap, that we are hurting the business; perhaps we are, as qulk of our trade is with the farmers. We will speak of their interest. been connected with farming business all my life, owning as many as five farm at one time. The agricultural interest represents about nine-tenths of the capital of the civilized world, and about nine-teuths of the people of the world are gaged in it. Taking this fact into consideration the agriculturist is not a si issue as many look upon them; they represent the largest business in the we and upon their business rests all other business. No workingman, business man or professional man is entitled to any better pay for his services than the farm er is. A farmer is not as well paid for his services as business men and profe sional men are, if he was he could spend his summer at watering places and winters in Southern countries, as many business men and professional men The farmer cannot afford to do this. The farmers, as a body, could dictate all others if they would assert their rights in the proper way instead of all others dictating to them as they do now. The farmers have to pay many profession men for their services more than ten times what they pay him for his services. As a body you could remedy many such wrongs; as individuals you can't. sympathy is with the farmer or with any other class who are not getting a fair proportion of this world's goods for the services they render, and opposed all others, who, with the same capital and effort, are making more than the tarmer on the same basis can make. We are making at least one-fourth more of our capital than it is possible for farmers to make on their capital, and this being the case, we are not selling goods too cheap, but can and will sell cheaper as our trade increases.

These are the views of the People's Store, 81 John Street South amilton. It is three years since we commenced selling on 10 and 15 per cent rofit, and each year since that has nearly doubled the business of the previous year; this shows that the public appreciates our cheap selling and come to us for their goods. There is no doubt but what we have all the trade during t the busy season this year on Saturdays, that it will be possible for us to wait on in our present premises. Of course on all days except Saturdays we don't expect to be crowded beyond our capacity to serve. Any day except Saturday will avoid the crowd and get better attention than we can possibly give you or Saturday.

The question is often asked us why we sell goods cheaper than others do. I will give you a few of the reasons why we can and do sell cheaper! others do-first, we are located where rent is not one-quarter what it is in the centre of the city; seeond, we do our own buying and have the name of being close buyers. Many stores trust this important matter to others. We buy it cash and sell for cash, and have no debts to lose. We are satisfied to work and to live as tarmers having about the same capital are forced to live. We don't think because we keep store that we are entitled to a fine city residence and house at the Beach and servants to wait on us. Can farmers afford to live such a life, if not, why should we expect it? We keep our store open every day except Sunday about the same hours that the farmers are torced to work. Mai other stores open at 8 and close at 5 p.m. Why should we be entitled to shorte hours and better pay than the farmer who represents in numbers and wealt nine-tenths of the number and capital of the world? There are still other rea sons why we can and do sell cheaper than other stores, but these should be

The coming season we will be better prepared to serve our customers than ever before, especially in Rubber Footwear of all kinds. We bought dire from the manufacturers over six thousand dollars worth of rubbers at about per cent. less than other stores in the city or country can buy. This being case, there is not a store in the city or country that can compete with us in ber of all kinds-during the coming season. We have many thousands of par in all the different lines of all kinds of rubber footwear, which we can and will sell at least 30 per cent, cheaper than other store in the city or country can sell them. Come and see for yourselves and be convinced that we are the cheapest in all kinds of goods we carry, and especially in all kinds of rubbers, lumbermen's socks for men, boys and youths. We buy in large quantities direct from the manufacturers and save the middlemen's profit, and sell them at least 20 per cent, cheaper than others sell them.

Our stock is now complete for the Summer. Fall and Winter Trade, consisting of a large stock of all kinds of boots and shoes in leather and rubber goods for men women and children. Clothing of all kinds, overcoats, underwear, and men's furnishings of all kinds. We carry three times as many long leather boots, rubber boots and lumbermen's rubbers as any other store in the city and sell them 15 to 75c a pair cheaper than others do.

We are the only store in the Dominion that deals exclusively in mismated boots and shoes, both in leather and rubber footwear of all kinds. buy these mismates all over the Dominion, mate them up as best we can and sell them for about one half the price of perfect mated goods of same quality; the are great value.
