and the Farmers in Particular.

Our competitors in Hamilton and surrounding country say that we goods too cheap, that we are hurting the business; perhaps we are as the Julk of our trade is with the farmers. We will speak of their inte been connected with farming business all my life, owning as many as five large t one time. The agricultural interest represents about nine-tenths f the civilized world, and about nine-tenths of the people of the world : Taking this fact into consideration the agriculturist issue as many look upon them; they represent the largest business and upon their business rests all other business. No workingman or professional man is entitled to any better pay for his services the er is. A farmer is not as well paid for his services as business men sional men are, if he was he could spend his summer at watering pl winters in Southern countries, as many business men and profession The farmer cannot afford to do this. The farmers, as a body, could dictate all others if they would assert their rights in the proper way instead dictating to them as they do now. The farmers have to pay many motession men for their services more than ten times what they pay him for his services of gifts, sparkling with the brightest and As a body you could remedy many such wrongs; as individuals y most original productions for the Holiday sympathy is with the farmer or with any other class who are not get proportion of this world's goods for the services they render, and all others, who, with the same capital and effort, are making mo farmer on the same basis can make. We are making at least one-Rarely will circumstances permit of the our capital than it is possible for farmers to make on their capital, and this bepresentation of such an admirable assortment | ing the case, we are not selling goods too cheap, but can and will sell cheaper as

our trade increases. These are the views of the People's Store, 81 John Street South, We Give Real Value for Right Prices. Hamilton. It is three years since we commenced selling on 10 and its per cent profit, and each year since that has nearly doubled the business year; this shows that the public appreciates our cheap selling i for their goods. There is no doubt but what we have all the tr the busy season this year on Saturdays, that it will be possible on in our present premises. Of course on all days except Saturdays we don't er pect to be crowded beyond our capacity to serve. Any day except Salurday we will avoid the crowd and get better attention than we can possibly give you on Saturday.

The question is often asked us why we sell goods cheaper than others do. I will give you a few of the reasons why we can and do sell others do-first, we are located where rent is not one-quarte centre of the city; second, we do our own buying and have close buyers. Many stores trust this important matter to other cash and sell for cash, and have no debts to lose. We are satisfied to live as tarmers having about the same capital are forced to think because we keep store that we are entitled to a fine city house at the Beach and servants to wait on us. Can farmers : a life, if not, why should we expect it? We keep our store open cept Sunday about the same hours that the farmers are torced t other stores open at 8 and close at 5 p.m. Why should we be ent hours and better pay than the farmer who represents in number nine-tenths of the number and capital of the world? There are sons why we can and do sell cheaper than other stores, but

The coming season we will be better prepared to serve ou than ever before, especially in Rubber Pootwear of all kinds. we from the manufacturers over six thousand dollars worth of rubbets per cent. less than other stores in the city or country can buy. case, there is not a store in the city or country that can compete v ber of all kinds-during the coming season. We have many thousall in all the different lines of all kinds of rubber footwear, which we sell at least 30 per cent, cheaper than other store in the city or con them. Come and see for yourselves and be convinced that we are in all kinds of goods we earry, and especially in all kinds of rubb men's socks for men, boys and youths. We buy in large quantities the manufacturers and save the middlemen's profit, and sell them a cent. cheaper than others sell them.

Our stock is now complete for the Summer, Fall and Winter consisting of a large stock of all kinds of boots and shoes in leather and r goods for men women and children. Clothing of all kinds over wear, and men's furnishings of all kinds. We carry three leather boots, rubber boots and lumbermen's rubbers as any other city and sell them 15 to 75c a pair cheaper than others do.

We are the only store in the Dominion that deals exclusive mated boots and shoes, both in leather and rubber footwear of buy these mismates all over the Dominion, mate them up as best w them for about one half the price of perfect mated goods of same? are great value.
