missioner at Ottawa has issued a revised edition of the Directory of breeders of pure bred live stock in Canada. According to the preface page the work is compilation of information received rough correspondence from breeders of the dandruff microbe which rough correspondence from breeders.

No preparation for the hair has done hand to grasp her hand. She turns. Ah, God, could I understand the stand that time in a shocking condition, and hand. She turns. Ah, God, could I understand the specialist. He treated me for a period specialist. The sounce of the dandruff make women's bat times until I was nearly mad. This is Mrs. Chas. Brooks' Opinion to know the danger. The moment of the Poppy-maid with the dark. through correspondence from breeders is the cause of 97 per cent. of hair in all the provinces in regard to the size troubles, of their breeding herds, and the number These pernicious, persistent and de- dian Magazine. of males and females of the several structive little devils thrive on the orbreeds they have for sale. The Directory is prepared to assist persons in locating herds, studs and flocks in their respective neighborhoods, or in distant provinces from which pure bred animals may be procured. It is stated in the Directory that copies will be sent ranchmen, stock breeders, secretaries of farmers' institutes, agricultural societies, live stock associations, and others, who may apply for them,

WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Half the Common Aches and Ills of Milton

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking-down. Overwork, strains, colds and other gauses injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison! Aches and pains and languor and lief the poor souls who come hurry urinary ills come, and there is an ever- ing in ten minutes late. It is smug increasing tendency towards diabetes to be precisely punctual. It is raising and fatal Bright's disease. There is no yourself above the rest of mankind, real help for the sufferer except kidney refusing to partake in its frailties. The

PUNCTUALITY.

t Gets a Joit From One Who Never Can Be on Time. So much is said about the virtue

punctuality that people who go in for it to any great extent are exceedingly uppish and disagreeable. Punctuality else has. People should remember this. If they are on time they only serve to throw into embarrassing reideal thing from the point of view of Booth's Kidney Pills act directly on courtesy to others and recent humility

always ten minutes late or at least to recover self-respect and stroll up with

your popularity and show you to be a person of kindness and forethought At any rate, it is better than a pitiless standing at the place where you said you would be, your superiority cause you appeared a rather likeable sort, but who finds you in your panes of punctuality the very reverse of For be it remembered that just as

some people cannot be on time others cannot to save their skins be late. So .. that they deserve not a what of credit ! for it and should, to fact, be repri manded when they do it obtentations y and in public.

SPZED OF WILD DUCK ?.

Dead Calm They Average Fifty-Eight Miles an Hour.

My observations were made with nullard and widgeon just off the sea ! and caming in at the evening flight, I such birds not having got fully under ' way, having traveled only about two l miles or a mile and a half, according to the state of the tide. The times varied from 10 1-2 miles an hour the teeth of a harricane to 190 miles an hour with half a gale driving them forward, their speed with a full gale being below then In a dead calm they averaged fiftyreight miles an hour, but, as I have

I mentioned, they were not traveling at top speed Officer species of duck fly much firster than this, the speed of a mergamer going down wind being A something terrific, and if I mentioned ' I my rough calculations made as to its? speed with a still breeze behind it no one would believe me, so I will refrain from doing so.

One day in March, when a fresh breeze was blowing down the Holy Bound, in Orkney, mergansers were lost sight of in five seconds after passing the point upon which I was sithey are without doubt the fastist of our weblooted birds, although other of the diving ducks, such as the goldeneye, fly at an enormous

The speed at which birds are traveling is very deceptive. For instance, swallows appear to be going very fast, but rarely attain a speed of thirty miles an hour, whereas wild geese appear to be traveling very slowly when seen at a distance, but see them passing over you at dawn about fifty yards overhead and their wings look like flywheels, giving the birds the appearance of huge bees in the half light, so fast are their wings vibrating.

The body of Captain John McLeod. who went down with thirty-four others In the Marquette-Bessemer car ferry in Lake Erie last fall, was found in the intake pipe of the Niagara Falls Power Company at Niagara Palis, N. Y.
