Railway Earnings-Rumors of More Mergers-Sending of Canadian Capital Abroad Criticised.

(Prom our Own Correspondent.) Montreal, Feb. 28th.-The recipros ity controversy is now in full swing through the land. From the Atlantic to the Pacific it is the chief topic of discussion, not only to the north, but to the south of the international berder, and the question has even vaded the legislative halls of Great Britain. No doubt the storm will continue to rage around this hone of contention for some weeks yet, and until the matter is decided by Canadian Parliament and the American Congress one way or the other will it let up. Deputations are heading for Ottawa to oppose the agreement, while those who agree are very

little heard from. One of the weightiest pronouncements against the agreement was made by the Montreal Board of Trade. an organization which generally gives the cue to similar budies, at least Eastern Canada. Yet this pronounce ment was by no means unanimous While Montreal is the king pin of the protected interests and shouts the loudest when vested interests are danger, there are yet many able men who do not see eye to eye with their business brethren and do not besitate

He, however, takes the precaution of taking three apples with him, and when the enraged sister sets her porkers on him, intending to kill him and seize his money, he runs away, but throws the apples one by one behind him.
