Mark Your Ballot with an X after Each Question under the word "No"

Above is an exact reproduction of the Referendum ballot, showing the correct way to Vote in order to sustain the Ontario Temperance Act as it stands.

Everybody should study the four questions and realize exactly what they mean. Do not be misled by the insidious demand for "light" beer.

The beer of the ballot is 118% stronger than the Ontario Temperance Act now allows, and over five times as strong as the limit allowed for beer defined as non-intoxicating in Great Britain and the United States.

Answer Each Question

1. Unless you vote on every question your ballot is spoiled.

2. You must mark your answer to each question with an "X" only. Anything else would spoil your ballot.

3. Unless a majority vote "No" on question 1 the bars will be restored and the sale of all kinds of intoxicants permitted. 4. Unless a majority vote "No" on questions 2, 3 and 4 the Ontario Tem-

perance Act will become almost worthless.

5. The only SAFE course is to mark your ballot as shown above.

"No!"-Four Times-"No!"

No repeal; No government beer shops; No beer saloons; No government whiskey shops. - Four X's, each under the word "No.

Comradeship

Hon, President

ADMIRAL Sir David Beatty, when speaking at Leicester a few days ago, said :--

"We have been through four and a half years of a great struggle. We have all learned something—the true value of comradeship. Comradeship has enabled us to win the war."

Realizing the significance and truth of this statement the Citizens' Liberty League ap peals to the people of this Province to develop the spirit of comradeship, mutual forbearance toleration and sympathy. Let us be fairminded, less rigid, more reasonable, and mores

The workingmen of Ontario appeal for better beer non-intoxicating beer beer conteining 2.51% alcohol by weight — THE BEER OF THE BALLOT.

willing to give and take.

Samuel Gompers, the world's greatest labor leader, stated the workingman's position clearly when he said :

"The normal men, the men of Labor who work eight hours a day and no more, the workmen who earn decent pay, the work-men who have comparatively comfortable homes, they do not want the artificial spirit.
The man of normal spirit finds comfort in pleasant surroundings; he does not need and, as a rule, does not partake of intoxicating drinks; be shous the effects of intoxicants What we now ask is that the men of Labor portunity to drink a glass of beer of not more than 2%% by weight of alcohol in that

been, and I am told you cannot drink enough of that character of beer to get drunk even if you tried." Scientific tests, practical experiments and thorough research prove that beer of even

greater strength than 2.51% of alcohol by weight, is absolutely non-intoxicating. (The results of these tests have been filed with the United States Circuit Court of Appeals) As no harmful results can possibly comfrom drinking beer of this quality is there any fair or logical reason why the working men should not have the more palatable beer for which they are asking - THE BEER OF THE BALLOT?

Support the working men and the Citizens'
Liberty League in the endeavor to obtain
a fair, just and reasonable compromise on the present too drastic prohibitory legists

Vote "YES" to all Four Questions . Mark your ballot with an X. Any other markings will spoil it. Remarker also every voter must vote on every question or his ballot will be spoils

The Why? of Another

TATHEN, on the morning of November 11th, 1918, the guns were hushed and glad tidings flashed across the world, there followed with the Nation's

Prayer of Thanksgiving, one yearning query, which found echo in the faster beating hearts of wives, mothers, fathers, brothers, sisters and sweethearts. That query was, "How soon will our boy be home?" And, from France and Flanders,

from Italy and Egypt, from Palestine and from far-off Siberia, there came an answering echo, "How soon, how soon, may we go home?"

position of the Army of Occupation had not then been settled. And other parts of the Empire as well as Canada were looking for the speedy return of their men. THE problem was this. The half-million men that Canada had overseas had

taken more than four years to transport to the field of battle. To bring them home in a few months was a gigantic undertaking—one to tax all Canada's ingenuity and resources. Canada solved the problem, but it meant crowding into

a few short months, an expense for demobilization which it was impossible to foresee. THEN, too, besides the sentimental aspect of the necessity for bringing the men home quickly the economic side could not be overlooked. That was, to trans-

form efficiently and speedily the nation's army of fighters into a national army of workers. Need Divides

Itself in Two Parts

to Soldiers That already incurred cost of bringing home troops from overseas. The payment of all soldiers still undemobilized. This includes more than 20,000 sick and wounded who are still in hospital, and who of course remain on the Army payroll till discharged.

staffs, until the need for them is ended.

These three items alone will use up at least \$200,000,000 of the Victory Loan 1919. There is also the gratuity which Gratuities has been authorized, and has been and is being paid to assist soldiers to tide over the period between discharge and their re-adjustment to civil life. For this purpose alone, \$61,000,000 must be provided out of the Victory Loan 1919, in addition to the

The upkeep of hospitals, and their medical and nursing

Victory Loan 1918. Furthermore, soldiers who desire to become farmers may, under Settlement the Soldiers' Land Settlement Act, be loaned money by Canada with which to purchase land, stock and implements. The money so advanced will be paid back; meantime each loan is secured by a first mortgage. Up to August 15th, 29.495 soldiers had applied for land under the terms of this Act; and 22,281 applications had been investigated, and the qualifications of the applicant approved. For this purpose Canada this year requires \$24,000,000.

from cellar to roof, but won't wash clothes

National Working Capital

Canada needs national working capital, so that she may be able to sell on credit to Great Britain and our Allies the products of farms, forests, fisheries,

You may ask "Why sell to them if they can't pay cash?" . The answer is, "Their orders are absolutely essential to the continuance of our agricultural and industrial prosperity."

The magnitude of these orders and the amount of employment thus created, will depend upon the success of the Victory Loan 1919.

Farmers and manufacturers (and that includes the workers on these of Credit orders) must be paid cash for their products. Therefore, Canada must borrow money from her citizens to give credit, temporarily, to Great Britain and our Allies. Actually, no money will pass out of Canada. If Canada does not give credit, other countries will; and they will get the trade, and have the employment that should be ours, to distribute amongst their workers. And remember, we absolutely need these orders to maintain employment. If we don't finance them business will feel the depression, employment will not be as

plentiful, and conditions everywhere will be adversely For Trans-Money must also be available to carry on the nation's shipbuilding portation
