If they show the least sign of strain, the eyes should be examined. Eye defects that exist in youth become aggravated and more difficult to correct later on.

Near-sightedness handicaps the children's education, effects their physical condition, often stunting their growth and closing to them many of the beauties of the world about them.

Better illumination shows its real value in the daily sales record. Finding the best light sometimes puzzles the

merchant. But experiments are no longer necessary. Experts of the Hydro-Electric Power Commission of Ontario have found the best lamps for store illumination—HYDRO Gas Filled Lamps. These lamps give a brilliant light closely resembling daylight. This fact alone makes them desirable for store illumination. HYDRO Gas Filled Lamps are truly economical. Ask the Hydro Shop for a demonstration.
