LESSON FOR MARCH 20 JESUS ON THE CROSS.

LESSON TEXT-Matt. 27:33-50.

GOLDEN TEXT-God commendeth His love toward us in that while we were yet sinners, Christ died for us.-Rom. 5:8. REFERENCE MATERIAL—Matt. 26:31; 27:32; John 12:24-33; I Cor. 1:18-25; 2:1; Gal.

PRIMARY TOPIC-Jesus Dying for JUNIOR TOPIC-Jesus Crucified. INTERMEDIATE AND SENIOR TOPIC -The Supreme Sacrifice. YOUNG PEOPLE AND ADULT TOPIC

The grand climax of the six months' lessons is reached in this one. If one miss the significance of the crucifixion, all the preceding lessons are valueless. It is not a matter of learning the lessons taught by a great teacher. or imitating the examples of a great and good man, but of apprehending the atonement made by the world's

1.—The Place of Crucifixion (vv. 33.

They led him away to Golgotha, a hill north of Jerusalem resembling a skull. He was not crucified within the city, for he was to suffer without the gate (Heb. 13:12). At first they com. should return to their own country young steer on the farm of one of his pelled him to bear his own cross, but and the idea appealed to many of A similarly unlucky end was that essary that some other should bear it mixed with gall. He refused this, as He would consciously drink the cup of sin to its bitter dregs.

II. Gambling for the Clothing of the Lord (vv. 35 36).

It was the custom for the soldiers who had charge of the crucifixion to receive the garments of the one crucified. Here we have the fulfillment of Psalm 22:18. "They parted my garture they did cast lots." If they had

V. The Dying Savior Revited (VV.

This reviling was engaged in by the passerby, the chief priests, scribes and elders, and the thieves who were crucified with him. In their mockery they unwittingly spake great truths. 1. "He saved others, himself he can-

not save" (v. 42). This jest was meant to show the absurdity of Jesus claims, but it demonstrated them and showed the reason for His sufferings. He could not save Himself and others, so He chose to give Himself to save others.

2. "If he be the king of Israel, let him now come down from the cross" (v. 42). His refusal to abandon the cross established His royal claims. The very fact that He did not abandon the cross proves that He was what He claimed to be for it was unto the cross that He came.

3. "He trusted in God, let him deliver him now (v. 43). His refusal to abandon the cross proved God's full delight and satisfaction in His Son. His obedience unto death was the sacrifice which met God's full approval. VI. The Death of Christ (vv. 45-50).

So shocking was this crime that nature threw around the Son of God a shroud that the Godless company could not gaze upon Him. Darkness was upon the land at noon-day. Upon the termination of the darkness H. cried with a loud voice, "My God. my God, why hast thou forsaken me. This darkness was the outer sign of that which hung over the Lord He became sin for the world, and the s.

sook Him; turned from Him who had taken the sinner's place. When the price was paid He cried out with a loud voice, showing that He still had vitality—that His death was not from exhaustion, but by His sovereign will. He yielded up the ghost, sent His spirit away. He died of His sovereign will. He died like no other man in all the world's history. He did not die of a broken heart.

New Textiles.

The search for a new fibre has resulted in the invention by a Frenchof a machine for extracting fibres from the leaves of wild pineapples, the banana, white nettle, and numerous other growths in tropical countries, and using them in place of hemp and flax. The best results are obtained from the wild pineapple, whose leaves produce long fibres, which after treatment may be likened sometimes to silk. Men may yet wear pineapple suits, women try the experiment of banana robes, and all of us sleep between palm-tree sheets.

Colloidal Metals.

The colloidal state of matter is one f comparatively recent intensive research, and the results have been of far-reaching character. In many departments of industry the peculiarities of the colloidal condition play an important role. Colloidal particles are groups of molecules or atoms with a dimensional variation of from five to 100 millionths of a millemetre. This is normally beyond the range of the microscope, and the particles are only observable under the microscope by reason of their reflection of a beam of light impinging upon them.

# Watchful Eyes Guard Its Quality

THERE is much more than mere routine to the elaborate system of inspection which guards the supreme quality of the Gray-Dort car.

Built into every car is the pride of an organization over sixty years experienced in the production of satisfactory transportation. each skilled craftsman looks upon the Gray-Dort as his personal product, by which he will be judged in the eyes of the

world The result is a carefulness—a precision of construction which is matched only by the fineness of the materials with which our men work.

The final result is freedom from ordinary motor car troubles and the long life which comes only with perfect harmony in every working part.

Compared with other cars, the Gray-Dort is worth much more than its fair made-in-Canada price.

The difficulty in securing a Gray-Dort will increase as the season advances. See the Gray-Dort dealer now.

Shall the importation and the bringing of intoxicating liquor into the province be prohibited?

THILE importation of intoxicating liquors VV into "dry" provinces was forbidden by war-time Order-in-Council, Ontario's iails were half empty.

Since that order was rescinded, imported "Booze" has been filling them up again.

## Jail Commitments
