Declines in wages and commodities never. continue to be recorded pretty well all along the line, and we continue to have daily reports that the bottom ada, wholesale prices at the end of murderous work. April were still 43 per cent, higher than the pre-war level. Taking 100 for 1913, the average for all wholesale commodities reached a peak of 264 May, 1920, but was back to 143

around 70 cents. At the same time these are signs of improvement in the general situation which eventually will make for goo business when deflation has run The reduction is railroad the re-adjustment of labor.

LICENSE THE CATS.

Brockville Recorder and Times . The City Council of Winnipeg has de termined to charge a dollar as license to keep a cat in consequence of the This was the Lord's voice calling Saul alleged destruction of birds in the by name and asking, "Why persecutest parks by the hordes of cats which in- thou me?" This moved Saul to inan old and vexed question. Directly answer came, "I am Jesus whom thou would produce a greater growth the such a suggestion is made there is an outcry against it by certain classes of the community, and generally they very doubtful, however, if they are (v. 6)). The dictator is now willing to seed would without treatment. We only are cats the destroyers of birds go into the city where information on a large scale, but worse still, they would be given him as to what he are the "carriers" of disease germs on a large scale also. Quite apart from this, there is a certain amount of un fairness in a dog tax when there is none for cats. Certainly dogs are not such a nuisance or a danger as cats.

____ An inch of Rainfall.

When you read in the weather bureau reports that an inch of rain has water that has descended from the sire food. Doubtless in this time soaked into the ground. Or, in other theology, words, on one acre of ground enough water has fallen to fill more than 600 barrels, each containing 45 gallons. 19a). The weight of this water, if the storm had covered 1,000 acres which would hitherto unknown disciple. be a very small shower) would be 13,-000 tons. In a single widespread rainstorm which covers whole states, falling to the depth of two, three or five inches, the result might easily reach 100,000,000,000 tons of rain! Just im-
