The President, Dr. H. A. McColl, was in the chair. He was one of the three men nominated. The others were W. F. W. Fisher, of Burlington and Duncan Campbell, of Moffat. Dr. McColl and Mr. Campbell withdrew in favor of Thompson ex.M.P., made the speech of the day. He discussed the tariff and other issues, and expressed the

THE ARENA INJUNCTION.—This case was heard here last Friday, before Judge Justin, of Brampton, and lasted until about 6 p.m. The plaintiffs, Mayor Earl, Jas. Houston. W. N. Scott and M. E. Nixon, all swore that they believed the proposed hockey arena would be a nuisance to them on account of the noise and that if erected the value of their residence properties would be depreciated. A witness from Bowmanville and another from Oshawa swore that they had lived close to hockey rinks in their respective towns and had found them nuisance on account of noise and

that a rough element attended the games, hung around the rinks after games had ended and broke the witnesses' windows with stones, etc. Three Burlington men swore they had found the rink in their town a nuisance, but on account of noise only. Mr. Ewing, a Toronto engineer. gave

expert evidence. He thought an arena with galvanized iron walls would be a nuisance in a residence section. It would be more noisy than an open rink. The plans of the arena showed that it would have a squat appearance. It would not look well among dwelings and close to the court house. For the defence two Brampton men swore that they lived close to the hockey rink in that town and there was not enough noise from it to trouble them, Dr. M. E. Gowland, President of the Arena Co., told of an interview with one of the plaintiffs, Mr. Houston, who
