THE PREMIER IN MILTON.

Electors, men and women, gathered from all parts of Halton, on Saturday, with many from the adjoining coun ties, to hear Right Hon. Arthur Meighen, who was officially welcomed Mayor Earl and the council and before the meeting at the rink gave a shor address to the school children at Victoria Park. The band escorted him to the rink and played selections there. Ample seating had been provided the rink, with a stage erected. There

was a great display of flags and the stage was decorated with evergreens James McDowell. President of the

Halton Liberal and Conservative Association, was chairman, and on the stage besides the speakers were Sam Charters, ex-M.P. for Peel and a number of Halton electors, men and Dr. R. K. Anderson, Halton's mem-

ber of the late Parliament and Govern-

ment candidate now, spoke briefly on the issues of the campaign. Hon. Edmund Bristol followed "As our opponents have not a leg stand on, on the tariff issue," said A Bristol, "their only hope of winning seats is by setting class against class and, in Quebec, race against race. He pointed out that it had been the policy of the Conservative party an indeed, of the Liberal party also, foster agriculture. He pointed and the industrial workers. Upon the Take what is known as the Blind Conprosperity of the one group depended also need protection?" asked Mr. Bristol. He pointed out the extent

which certain United States food products were being imported into Canada, and the extent to which Canadian food products were being exclu ed from the United States under the Fordney Tariff Act.

The Prime Minister, on rising speak, was greeted with cheers. discussed first the grain enquiry, which was so abruptly halted by the legal, Crown Hill, enjoy his highway and action taken by Hon, T. A. Crerar, as general manager of the United Grain Growers, Limited, and by ment of the courts is favorable, that investigation is going on" asserted tem? Have they abolished patron-Mr. Meighen. The Prime Minister traced the origin of the United Grain Growers' and the Saskatchewan Co-Operative Elevator Companies to the feeling among Western farmers tha the grain companies were making exthe grain and that the spreads, be- whether this man knew a bond from a we came to the Tebu settlement; yet tween prices quoted for street wheat and track wheat, were too great. was alleged that the United Grain Growers and the Saskatchewan Company, instead of remedying the abuses complained of, simply became members of the Grain Exchange and operated just as the grain companies had. done. It was also said that profits made by the United Grain Growers were used to carry on political propo-ganda in Western Canada. The Prime Minister said that when an enquiry into the handling of Western grain was decided upon, he had as ted Henry Wise Wood, head of the United Farmers of Alberta, and the president of the people. Now the question is—Are month in one place," said Sidi Idris the Agricultural College at Winnipeg to be members of the investigating board, although both declined to act. Mr. Meighen regarded his request as a proof that he was not contemplating

a "political" enquiry. The Premier said he was unable to see how the enquiry could have hurt Mr. Crearar, if it could reveal nothing discreditable to Mr. Crerar's company. Proceeding, Mr. Meighen stated his intention, returned to power, to form a Grain Board, similar to that established during the war, through which any farmer could ship his grain, get a cash ad- ago. own conditions," said Mr. Meighen, her, for a short visit. "our policy is to get our goods to the consumers by the shortest routes and by our own railways and ships, if possible. There never were so few free Provinces. Before long there won't be so many there and a home market for farm products. That will be the end of the present poisonous propo

> > Life In an Arab Town.

In Libya, smoking, drinking, and his job in Toronto, he can go back to dancing are forbidden by the Senussi law. The great difference between the Senussi towns and any other desert city is, therefore, the entire absence in the former of the cafes which usually form the centre of life and movement. The whole life of an Arab town goes on within the high, impenetrable walls. Otherwise. they are cities of the dead. "I doubt," work to a Delco Light man who was a cret of the Sahara," "if we saw a note, but he went to England under it has a population of 700. Everything dries appallingly in the desert. One's skin is cracked and lined after a few days. One's nails break. One's hair dries and becomes brittle. Yet, says Mrs. Forbes, one does not mind. The desert has a subtle and a cruel charm. She destroys while she enthralls. "I cannot stay more than a ("His Beatitude" the Emir). "Then I must move, for I love the scent of the desert."

Millinery and Sea Gulls. It would appear that women's hats and seagulls have parted company. Consequently more gulls are observable in New York harbor and along the entire Atlantic coast than at any time in the last thirty years. Statistics just compiled by the president of the National Association of Audobon Societies, show that gulls are breeding in enormous numbers and that in some of the rocky and sandy wastes of New Jersey, Massachusetts, and Maine the beaches are literally strewn with speckled eggs, some of them as large as chicken eggs. It is estimated that around New York there are more than 200,000 gulls, while the gull population of the coast CONCERT.-Every seat in the Prin- exceeds 1,000,000. Methods of Keeping Cow Records. Four things are necessary for keeping cow records:

1. A monthly milk sheet, ruled so that there shall be a column for recording the weight of the morning and evening milking of each cow for each day of the month, though some use a sheet ruled for three days only, and estimate the weight of milk given for the month from these three days, which may be consecutive or Ford Sales on the 1st, 10th and 20th of the month, making ten day periods

2. A milk scale, preferably one having a dial-face and two hands, one of which shows the net weight a milk in the pail, when properly set. This scale costs about five 3. A four to eight-bottle Babcock test, where it is desired to know

what each cow's milk tests in fat. This will cost from eight to twelve dollars complete. 4. The fourth and most important requirement is, "The-will-to-do." Without this, milk sheets, scales, testers, etc., are valueless. By having scale, sheet, pencil, sample bottles properly labelled, etc., all conveniently arranged, it takes but little
