Persistent coughs lead to chronic bronchitis, asthma and permanent chest weakness. Swallowing druggy mixtures into the stomach is useless in bronchial trouble. It needs Peps the breatheable remedy which goes direct to the root of your cough.

As Peps tablets dissolve in the mouth, they give off powerful medicinal fumes which soothe and heal the inflamed breathing tubes, and destroy all disease germs. Peps speedily end chest soreness, clear the bronchials of phlegm and mucus, stop the wheeziness and coughing, and make breathing easy. Remember, it is far better to prevent pleurisy,
