THE STORE FOR VALUES

Popular Varieties of Strawberries. From the beginning of comme strawberry growing, about 1800, the Large Early Scarlet was the leading variety grown in the United States. About 1860 the Wilson replaced this variety, because it was much firmer and was more suitable for shipping to distant markets, and its hardiness and good bearing qualities helped make strawberry growing more popular in Ontario. From about 188 varieties began to replace each other in more rapid succession, until Small Profits Burlington, Ont. | present 25 sorts constitute about 90 per cent. of the total commercial strawberry acreage. The Klondike, the leading variety in the Southern States, heads the list, constituting 28 per cent. of the total strawberry acreage. The Aroma, the favorite variety in the South Central States, is second with 13 per cent. of the total acreage, while the Dunlap in the Northern States ranks third

> with 10 per cent. In Ontario among the most popular varieties commer Here is an offer that will cially are the Glen Mary. Williams Dunlap, Gandy, Splendid, Parsons, and Sample. Among the fall bearers the Superb and Progressive are special 50c to 69c. Feeding the Cow Before Calving. Children's The proper time to begin feeding Straw Hats a dairy cow is six or eight weeks before calving, and practical dairymen agree that this preparation has more \$1.00-\$1.25-\$1.60. to do with the amount of milk and butter fat which a cow produces dur-

ing the lactation period than does For cows calving during the summer or early fall most dairymen like to have a small pasture away from the herd but with an abundance of grass, and, in addition, they like to feed a suitable grain mixture. Coin silage, with clover or alfalfa hay and a limited grain ration of three parts ground oats, two parts of bran, and one part of oil meal is especially good for cows calving during winter to \$2.00. or early spring. After calving the cows should be brought slowly up to full feed and thereby steadily to

What Eyes Indicate.

higher production.

Round open eyes which are placid in expression indicate a generous d position, with great amiability, and also a decided wish to please. In a woman this will be combined with good deal of demureness, though she has the power of attracting the opposite sex.

Where the eye is somewhat of this type, but with a fixed, staring look, great obstinacy is indicated; while eyes that are set too near the nose are a sign of meanness and of grasping, suspicious nature. large, blue eyes, very clear, and almost transparent when you get side view, are signs of great ability and sensitiveness. They also indicate Your New Spring Shoes Are a jealous disposition.

Black sparkling eyes that small in size denote a sanguine dis position, and a habit of looking on the bright side of everything, combined with good powers of observawill be done rashly; but at the same time there may be a decided tendency to slyness and cunning.
