The Ribston Pippin.

Each leading apple has its story. and one may be given, that of the Credit Ribston Pippin. For it we have to thank a diplomatist, who was made a baronet by Charles I., Sir Henry Goodricke, who planted three "pips" sent him from Normandy, at Ribston, Yorkshire. Two came to nothing, but the third flourished, and from it, says Brewer, "came all the Ribston apple trees in England." THESE biting boisterous March winds mean discomfort for sensitive skins. Faces and lips soon get chafed and sore, hands and

arms become red, rough and unsightly unless your skin has the aid of Zam-Buk to keep it healthy, smooth and flexible. Zam-Buk bears no resemblance to the old fatty salves

and 'beauty creams.' These lie uselessly on the surface of the skin, but Zam-Buk consists of rich refined herbal extracts, that are quickly absorbed by the pores. Thus Zam. Bukexerts a soothing, purifying power on all the tissue. Soreness, irritation and inflammation fly before Zam-Buk. It quickly removes the poisonous germs and pore-clogging impurities, and is a soothing, powerful remedy for eczema, tetter, salt rife in pimples, blotches, rash and other similar skin trouble.

Zam-Buk Mada Her Skin Fine & Smooth.

Miss Rosa Wallace, Men e. Out., writes "When my hands rere made rough and sore by the Spring winds. I just applied Zam Buk every night and my skin was soon all healed, fine and smooth. Zam-Buk is by far the best halm I have used. It is equally good for pimples and for healing cold-sores "

At Oxford. There are to-day so many indications of a more general acceptance of the international point of view among the peoples of the world than ever before that it is no surprise to learn of the formation of an international organization among the students of the various colleges of Oxford University, England. It is called the Oxford International Assembly, and is composed of delegates from thirty-nine nationalities, having originated from an idea of an officer in the world war, J. W. Parks, who after the armistice returned to Oxford to complete his interrupted

course. Mr. Parks felt that the students of some forty peoples assembled in Oxford, who in the future were likely to become leaders of thought in their own countries, were losins a wonderful opportunity of setting an understanding of the outlook of the other peoples by not being brought into sufficiently intimate touch with them. The assembly as at first organized was limited to those whose countries belonged to the League of Nations, but of late students from the United States, Ger-

Lady Churston is a remarkable woman, the mother of six young children. She is noted for her beauty, Popularity and her singing at charitable events. She may also be the arst peeress to go on the concert stage. Lady Churston is credited with a remarkable voice and has already sung for practically all members of the court circle. She is always ready to sing at benefit per-

formances. Lady Churston, a daughter Alfred Smither, was married in 1907 to the third Baron Churston, otherwise John Reginald Lopes Larde-Buller. They have two sons and four daughters. The baron served in South Africa, was A.D.C. to the Viceroy of India, and the Duke of Connaught. and is now an officer of the Scots Guards reserves. He owns 11,000 acres, mostly in Devon, so that his wife scarcely needs the proceeds of concert engagements, as much as she aspires to distinction in her art.
