C. D. McGregor, Gold Mining.

(Vancouver. B.C., Sun. June 6.) Announcement was made last night, that the new gold discovery on Quesnel lake three-quarters of a mile above the dam and about three miles this, side of Cedar creek, has been taken over by the Murray-McGregor Mining Company, which has opened a local office in the Credit Foncier building. Gold was discovered at this point by Kenneth Thompson and Arthur Dahl ton, two prospectors, who staked two bench claims about a year ago. was learned yesterday that these two young men have been taking out good values for some time, but have been James B. Murray of the Murray.

McGregor Mining Company has a nugget weighing seven and a half ounces, which was found on May 8th. Values as high as \$50 per day have been taken out recently, he states. The company contemplates equiping the newly-acquired properties with modern machinery. George Bagley and Walter B. Lamb are now on the ground for the Murray-McGreg. or interests. Mr. Bagley is an Australian placer miner, and is said to have an expert knowledge of the latest methods in placer mining. The Cedar creek discovery is described by Mr. Bagley as one of the richest he

MOTHER OF

Recommends' Lydia E. Pinkham's Vegetable Compound to Other Mothers

Hemford, N. S.-"I am the mother of four children and I was so weak after my last baby came that I could not do my work and suffered for months until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. Since taking the Vegetable Compound my weakness has left me and the pain in my back has gone. I tell all my friends who are troubled with female weakness to take Lydia E. Pinkham's Vegetable Compound, for I think it is the best medicine ever sold. You may advertise my letter."-Mrs. GEORGE L. CROUSE, Hemford, N. S.

My First Child F Glen Allen, Alabama. - "I have been greatly benefited by taking Lydis E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the egetable Compound to me after I had taken doctor's medicines without much It has relieved my pains and gives me strength. I recommend it and give you permission to use my testi-monial letter."-Mrs. IDA RYE, Glen

Chevrolet—the World's Most Economical Car to Operate

HEVROLET is not only the world's lowestpriced, fully-equipped automobile, but it also costs less to operate than any other car built. It delivers the most economical transportation available in motoring.

In actual figures Chevrolet costs less per mile in consumption of gasoline, oil, tires, and in

general upkeep and maintenance. Only great engineering, research, manufacturing and financing capacities made available by the greatest automotive enterprise in the world—the General Motors Corporation could make possible so fine, complete and advanced an automobile as Chevrolet at so low a price.

See the New Chevrolet before you buy a car at any price. 67 distinct improvements have made it even better than the car that startled the world in 1922.

Great damage to corn crops in certain sections of Ontario has been caused in recent years by the European Corn Borer. To check this pest, follow closely recommendations of the Department.

『劉 Its Life History

The moth appears about the middle of June and lasts until about the last week in July.

In this period the female lays its eggs on the undersides of the corn leaves, preferably on the most advanced corn.

The Borer

The damage is done by the borer stage. The "worm" develops from the egg, eating into the stalks and ears. It winters in the stubble or stalks.

The Pupa

The worm changes to the pupa, which in turn develops into the moth about the second week of June or later.

The suffering and loss caused by forest fires are common knowledge and, yet, carelessness with fire in the forest continues. These forest fires are practically all preventable.

Save Ontario's Forests They're Yours

Every individual who steps inside the woods should remember he is in the midst of highly inflammable property, for the upper layer of ground in the forest consists of partially rotted wood, which will burn. Lack of consideration for this gave rise to the strenuous situation in Ontario the last week of May and the anxiety for days in some settlements.

Thoughtlessness or bad judgment or carelessness cause practically all forest fires. Your co-operation, as a citizen, is needed to prevent these fires by taking the same care in the woods as in your own home.

Parliament Buildings Toronto, Ont.

"I heard Granville Baker tell a de lightful story when speaking of the ignorance of the public about behindthe-stage matters," writes "The Stage Cat" in "From the Wings." "He was producing one of his own plays at, the Court. Rehearsals were at their last frantic gasp before the first night. Strong men were falling exhausted upon the stage, actresses were being revived in the wings, when a dear old lady, who had known Barker as a boy, came up from the

country and wanted to see him. "She called upon his mother and said she was sure Gran must be getting quite a great man, for she had read about his new play in the local paper and when could she see him? Mrs. Barker replied that she feared that to see him would be out of the question, for he was busy night and day rehearsing. "'Dear me,' said the old lady; 'and do they run through the thing beforehand, then?"
