THE HOPPE COAL FIELDS. Great Wealth in Province of Alberta

Awaits Development.

Mansewood won at Mount Union. 9 that lies in the great Hoppe coal called "A Book of Verse," was pub- 1805, in the county of Tyrone, in the bers attended the Women's Institute grounds that many people nad difference to 2. Batteries—Currie and Robb, fields in the Province of Alberta. lished locally in 1909. the first seven innings, but Burlington tuminous coal, while other authorias describing his friend and his love was a dense forest and plenty of work and those of Burlington High School.

This coal has been submitted to

Volatile-16.3 per cent:

Ash-3.2 per cent. Fixed carbon—79.0 per cent. The large portion of this gigantic coal field is owned by the Dominion Government, though several coal companies have leased small areas of the tract, and are holding these leases until such time as a railway is built into the area, which will enable them to develop these valuable holdings. The fields are eighty miles from the National Railways, about half way between Grande Prairie and Brule, and are along the proposed route of

the Grande Prairie-Brule extension

of the Canadian National. The two great provinces of Ontario and Quebec are faced with a great problem in their hard coal supplies. Heretofore, ninety millions of dollars were spent annually by the people of these provinces, in the United States, for the importation of Pennsylvania anthracite and they are continually faced with the danger of this supply being shut off in case of a slump in production by the American mines, when they would be left in dire R. H. E. straits for fuel. It is small wonder then that all eyes are turned to Al-32021170x-1621 3 berta for a solution of their fuel problem and Alberta is in the happy position of being able to supply them. the only drawback being the long rail haul and high freight rates, hind. which will have to be so adjusted as to make it possible for this coal out-

Hit by pitch- purposes. It necessarily follows then, by Telfer, Thomas. Balk, that the Alberta hard coal supply must be developed at once. There are only three fields of hard coal in Alberta, they are located at Crows Nest, Bankhead, near Banff, along the C.P.R. main line, and the Hoppe fields, located on the upper Smoky field is nearly worked out and that Nest mines, is used by the C.P.R. for coaling their locomotives, so that the Hoppe field is practically the only available field left, from which hard coal could be mined for the eastern market and it must also be remembered that this coal will find a market

The era of prosperity the developundeserving of such treatment, and in the United States, would mean would mean enormous payrolls and assist to put money in circulation every part of the province.
