about Peps? Peps is a up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest

and throat troubles. Peps contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchiel tubes, the delicate wells of the sir passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passeges. Johnson, of London, England. these Peps fumes get there direct. There have been twelve dea and at once commence healing.
