

MR. THOMAS GRAHAM. "I am sixty years old and tried all kinds of medicines for bladder and kidney trouble, which used to keep me from work a month at a time, until I started taking 'Fruit-a-tives'. Thanks to 'Fruita-tives' I have worked steadily for four years without a sick day. I have never felt better than I do now," writes Mr. Thomas Graham of Oshawa, Ont. Because it is made from the juices of fresh ripe fruits, intensified and combined with strengthening tonics, "Fruita-tives" soon brings radiant health to those who suffer from constipation, bladder and kidney troubles. It works in nature's own way. You will find "Fruit-a-tives" the very thing your system needs. 25c and 50c a box at all druggists. Start right away-to-day.

WHAT IS PEDIGREE SEED?

Thoughtful farmers are considering their seed supply. Many are carefully preparing their own but others find necessary to buy and they are confronted covered that there is in certain stars with the question of variety, vitality and a peculiar sort of matter 20.000 freedom from disease and weed seeds. scientific and practical approval, thus you size of a golf ball, if placed on a pion. will save yourself from the wiles of the table, would crash through the table high pressure salesman. Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.-"I had terrible feelings, headaches, back and side aches and pains all over my body. would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail. and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."-Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

Dull Pains in Back St. Thomas, Ont. - "I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash I am feeling better than I have for the past seven years, and advise my friends to take it."- Mrs. F. JOHNSON 40 Moore Street, St. Thomas, Ont. C

COPPER AND TIN.

Only 100 Years' Supply of Copper In the World. The old alchemists tried to turn

tin and copper into gold. But British scientists are now thinking of going them one better, by turning gold into tin and copper. Copper and tin deposits are rapidly running out, while the gold supply continues undiminished. In time, scientists in England say, copper and tin will become so valuable that it will pay chemists to transform gold and silver into these more useful metals.

British scientists, in interviews in the London Mail, say that there is only about 100 years' supply of copper in the world. Cables and electrical devices are using up great quantities of it. The marvelous durability of gold will make it a good substitute for copper when the time comes that gold is more plentiful

The alluvial deposits of tin in Cornwall have all been worked out and the only tin now produced there is from vein mining. Five-sixths of all the tin in the world is obtained from such alluvial deposits. England is depending on such small areas as Guiana, Boliva and the Straits Settlements for nearly all the tin which goes into commodities industrially indispensable.

By re-arrangement of the electrons of gold, scientists say that they may some day be able to transmute gold into the baser metals, just as the alchemists tried-vainly - to transmute the baser metals into gold. Failing that, scientists are looking about for a method of extracting material from space, according to the publish-
