At the beginning of this year the membership of the organizations allied in the Swedish Co-operative Union (Kooperativa Forbundet) totalled 366,000, against 100,000 in 1913 and 315,000 in 1925, while the union's business turn-over last year was 350, 000,000 crowns (worth 26.8 cents) each), against 286,000,000 in 1927 and 41,000,000 in 1914. As in many cases a member counts for a whole amily the importance of the co-operatives in a kingdom of about 6,000,-000 inhabitants is apparent.

Froduction plays a larger part in the work of the Swedish co-operatives than in those of some other buntries. According to data found in the current issue of Commerce Reports the union owns two of the biggest flour mills in the country, which STOBIE, FORLONG & CU. turn out about 4,800 sacks a day, or 25 per cent. of the total domestic production. Because tanned flesh tones are smart, rouge has "gone out," in her opinion, and lip stick is used only b those women who have tightly drawn lips and need lip rouge to make them look fuller and prettier. "The high school girl who uses cos-

In America, says the expert, there is a lot of tattooing, but the designs have no artistic beauty and show no imagination, especially referring to initials and pictures of pretty girls which he found to prevail everywhere.

The figures used by the Japanese are of a high artistic order. A certain tattooed emblem, such as are worn by members of certain organizations, is a leg impression, consisting of a spider hanging down a long thread and finally coming to rest right above the ankle of the man's right leg.

A Tribute to The Farmer

TN 1921 and 1922 conditions affecting the farmer were very serious. Wheat dropped to less than \$1.00 per bushel, cattle to 6 cents per pound, butter to 31 cents per pound. But the farmer's own living costs did not decline so abruptly. For three years he struggled against a combination of difficulties which would have driven less courageous men to despair.

Gradually, however, the farmer worked himself out of depression, and to-day, the Canadian farmer is regarded as the most successful in the world.

The farmer won his biggest fight. His own efforts counted most, but he had help from some people and institutions who had unbounded faith in him. This Bank stood by him, because of its unchanging policy to further his interests in every possible way.
